RFQ APPRAISAL SERVICES (Online)

HOLLISTER

Owner: San Benito Co Public Works 831-636-4170

Bid Date: 1/26/2015 @ 5:00 PM Addendums Received: 2

Info: The San Benito County Public Works Department is requesting from all firms interested in providing property appraisal services for properties located in San Benito County. The county is currently pursuing a multi-year program of construction of facilities that may include the need for land and or easements acquisitions from willing sellers and The County requires information on property valuations. This will result in a short list of consultants for Property Appraisal Services that will be maintained for two years with the Department of Public Works. This list will be used for the County on call projects as required for locally funded projects.

RFQ ARCHITECTURAL SERVICES - FIRE STATION FLYNN RD (Online)

HOLLISTER

Owner: San Benito Co Public Works 831-636-4170

Bid Date: 1/26/2015 @ 5:00 PM Addendums Received: 1

Info: The County of San Benito, Department of Public Works, is seeking qualifications from qualified Architecture and Engineering firms specializing in Civic and Commercial structures. The selected consultant(s) will provide architectural design services, site engineering plans and specifications, construction documents, and/or specifications for the Fire Station Flynn Road project. The project involves construction of a fire station located on a vacant parcel owned by San Benito County near the Hollister Municipal Airport and the Main Jail. The Fire Station is planned to be built as a temporary station using several modular buildings being acquired by the County. A separate apparatus building would be constructed adjacent to the modular building to store four apparatus as a modular steel building.

RFQ ARCHITECTURAL SERVICES - TECHNOLOGY PARKWAY 2ND FLOOR MOD. (Online)

Owner: County of San Benito 831-636-4170

Bid Date: 1/26/2015 @ 5:00 PM Addendums Received: 1

Info: The County of San Benito, Department of Public Works, is seeking qualifications from qualified Architecture and Engineering firms specializing in Civic and Commercial structures. The selected consultant(s) will provide architectural design services, site engineering plans and specifications, construction documents, and/or specifications for the 2301 Technology Road

2nd Floor Office Modifications project. The work will require constructing partition walls floor to ceiling, associated and appropriate electrical, fire sprinkler, HVAC and other code required improvements. The area is approximately 18 by 40

MONTEREY ST. WATERMAIN REPLACEMENT (Online)

SAN LUIS OBISPO

Owner: City of San Luis Obispo 805-781-7423

Bid Date: 2/4/2015 @ 2:00 PM

Info: In general the project consists of the installation of a new waterline and abandoning of the existing. All existing fire hydrants and any other connections will have to be reconnected to the new water line.

RFQ FOR DESIGN AND ENVIRONMENTAL SERVICES (14)

SANTA CRUZ

Owner: City of Santa Cruz 831-420-5188

Bid Date: 2/4/2015 @ 2:00 PM

Info: The City of Santa Cruz is soliciting Statement of Qualifications (SOQ's) from qualified firms that will perform the design, engineering, final plans, specifications, and estimate, and environmental permitting for the Monterey Bay Sanctuary Scenic Trail (MBSST) Segment 7 (Natural Bridges to Pacific Ave.).

Segment 7 is approximately 3-miles long and will tie into into Natural Bridges Drive to the north and Pacific Avenue to the south, adjacent to the Monterey Bay National Marine Sanctuary Exploration Center. This segment is proposed on both the coastal and inland sides of the railroad tracks and runs through commercial, residential, coastal, and park zones. The railroad tracks currently service recreational passenger and freight trains operated by Santa Cruz & Monterey Bay Railway (Iowa Pacific Holdings) and Roaring Camp and Big Trees. There is an ongoing study being conducted by the RTC to provide more passenger rail service in the future.

The multi-use paved trail is proposed to be 12 feet wide with 2 foot shoulders and has fourteen (14) street crossings, three (3) rail crossings, and three (3) drainage crossings. The width of the rail right-of-way varies from the center of the track but any new improvement must be a minimum of 10 feet from center of track and possibly further away in or around railroad track bends. Fencing may be required between the track and the new trail.

PERFORM REPAIRS/REPLACEMENT TO WATER WELLS (47)

CAMP ROBERTS

Owner: City of Monterey 831-646-3997

Bid Date: 2/17/2015 @ 2:00 PM

Addendums Received: 2

Prebid Conf: Mandatory Prebid - 12/17 @ 10am- site

Info: The work in general includes, but is not limited to, refurbishing the existing Well No. 2, replacing the existing Well No. 1, and completing site work to improve the piping and valve systems. Well No. 2 is a 510' deep well installed in 1997. Refurbishing well No.2 includes dismantling the well building and surrounding fence, pulling the well pump and surface hardware, brushing bailing and inspecting the well, installing a new well pump, sounding tube, and above ground hardware, installing a new vfd soft start pump controller for a completely refurbished and fully operational system. Well No.1 is a 360' deep well that was installed in 1961. The replacement work involves destroying the existing Well No. 1, and constructing a new replacement well and well shed, adjacent to the destroyed well to a depth of 510' minimum with the potential increase in depth if the aquifer hydrogeology allows. The new well shall be capable of producing 85 gallons per minute at 125 psi. The site work involves installing a new underground 4" diameter water pipe replacing underground water valves, constructing a new valve box, performing hazardous materials abatement and other miscellaneous items

- Concrete Curb and Gutters
- Concrete Flatwork

A Sole Owner shares a lesson on changing company structure that requires a sacrifice. Another interesting question from a General making entry into CA construction while another helps us remember when to ask for a waiver...

Q: We have been licensed for many years in California as a corporation. Now that California is licensing Limited Liability Companies (LLC) we recently applied for a license for our LLC, which is how we conduct business in many other States. We are General Engineering contractors and our business name is our owner's name, followed by "Construction LLC". Our application was rejected because the CSLB is stating that we cannot use the word "Construction" in our name. They are requiring that we adopt a 'doing business as' name (dba). For obvious reasons we don't want a different name in California than we have in other States and the President is arguing that there must be some way around this. Is there a law that you can point me to that I can provide to our President with regards to contracting company companies using "Construction" in their business name?

A: There is no code section that specifically addresses the use of the word "Construction". B & P Code Section 7059.1 states that a business name needs to be compatible with the classification that is being performed. The CSLB has determined that General Building ("B") contractors are the ONLY license holders that can use "Construction" in a business name without giving descriptive or limiting words. Therefore, you can still use the word "Construction" in your name, but it needs to be prefaced with a descriptive word. As an example, "John Smith Engineering Construction LLC" would likely be acceptable.

Q: I am a General Building contractor and I want to add the "C-8" Concrete classification to my license. Is there any way that I can get a Waiver of the exam based on the fact that I've been doing concrete work with my General license for many years?

A: There are certain circumstances where you can ask for a Waiver of a Specialty Classification based on the current classification that you hold. The CSLB may consider a waiver if you meet the following requirements: a) The Qualifier has been listed as a member of the personnel for five of the last seven years immediately preceding the application; b) The Qualifier has at least four years of experience within the last 10 (Journeyman level or above) in the classification being applied for; and c) The classification being applied for, as determined by the Registrar, is closely related and is a significant component of the classification currently on the license.

Be aware that when requesting a Waiver of an additional classification you will likely be required to provide additional documentation, such as detailed project forms showing that your additional classification has been a significant part of your work.

Q: I have a Sole Owner license and I recently incorporated. Do I just need to submit a name change application to the CSLB?

A: No, since you formed a new corporate entity you are required to submit a new license (waiver) application. As long as you own at least 51% of the corporation you can transfer your Sole Owner license number to the corporation, however be aware that if you do that you can never get it back as a Sole Owner in the future.

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email info@cutredtape.com, or write us at Capitol Services, Inc., 1225 8th St. Ste. 500, Sacramento, CA 95814. Are you covering the cost of your Employee's Individual Medical Policy?

Central Coast Builders Association

6/20/2014

Caution for Individual Policy Reimbursement

The IRS uses a FAQ on Employer Health Care Arrangements to highlight the potential liability for employers that, rather than establishing a group health plan, merely reimburse employees for the cost of their individual health plan premium.

Q1. What are the consequences to the employer if the employer does not establish a health insurance plan for its own employees, but reimburses those employees for premiums they pay for health insurance (either through a qualified health plan in the Marketplace or outside the Marketplace)?

The IRS makes it clear that the consequence is that the employer may face a penalty.

Specifically, as explained in [Notice 2013-54](#), employer reimbursement plans are considered to be group health plans and therefore subject to the market reforms, including the prohibition on annual limits for essential health benefits and the requirement to provide certain preventive care without cost sharing. Notice 2013-54 clarifies, however, that employer reimbursement plans cannot be integrated with individual policies to satisfy the market reforms.

Consequently, the employer may be subject to a \$100/day excise tax per applicable employee (which is \$36,500 per year, per employee) under [Code Sec. 4980 D](#).

*Let us help design your program to avoid this penalty.
By Mike Carlson, Builders Association Health Plan
mcarlson@craford.com or 415-755-6325*

Craford

*Changes to
expect:
...*

For plan years beginning on and after January 1, 2014, employers should carefully evaluate arrangements under which they reimburse employees for premiums, or are otherwise involved in the purchase of individual health insurance policies that provide non-excepted medical coverage (i.e., coverage that is subject to health care reform's mandates) for employees. These arrangements create significant compliance concerns under health care reform. Furthermore, these individual policies should not be paid for or reimbursed on a pre-tax basis under an employer's cafeteria plan. As described in more detail (left).

This event will be Wednesday, February 11th from 10:30 am to 2:30 pm at the Steinbeck Center in Salinas. Registration is free for Big Creek Customers and enrollment is limited to 200 attendees.

Presentations:

- **60 Ideas in 60 Minutes:** Craig Webb, Editor-in-Chief, Remodeling & ProSales Magazines will present some awe-inspiring ideas that apply directly to the construction industry. He's flying out from Washington DC – Come be a part of his contagious energy.
- **How to Protect Yourself with Preliminary Lien Law in CA:** John Domingue, Esq. will present tips to navigate the overwhelming world of lien law. Throughout John's career he has worked in management with several businesses, including his own, and possesses experience in resolving real-world business obstacles – Meet the knowledgeable, relatable attorney.
- **Current Construction Loan Environment:** Richard Hofstetter, the Chief Executive Officer and President of Lighthouse Bank in Santa Cruz, will explore the current loan environment. Then he'll educate us on how to make the most of it - Learn some tips and tricks from our local banker!

Safety Tip of the Week

Fall Causes

Injury due to falls is a major problem in construction today. Injury and death from falls is second only to traffic accidents taking some 21,000 lives each year.

Falls are placed in two categories:

1. Falls on the same level.
2. Falls from different elevation.

First, let's look at some of the causes of falls on the same level such as slipping, tripping, and bumping into.

- Slipping could be due to ice on the walk, oil or grease on the floor, a banana peel left over from lunch, a small piece of pipe, a soft drink bottle, or a welding rod stub, just to name a few. We can avoid these hazards in two ways; first, we must practice good housekeeping by keeping our work areas clean and orderly; second, we must be alert and watch our step.
- Tripping can be caused by an irregular surface, lines or hoses across walkways, tools not in their proper place, poor lighting, and many others. The rules for avoiding tripping hazards are much the same as for slipping hazards; that is, practicing good housekeeping, watching your step, and in addition, keep your shoes (safety shoes) in good condition. Bad soles and heels have caused many falls.
- Falls caused by bumping into also result in serious injuries. We should be especially careful in hallways, warehouses, and places where blind corners exist. We sometimes get in too much of a hurry; maybe we are late in the morning or in a hurry to get home in the evening. In this rush we go around a corner too fast and collide with another person and we go spinning.

Falls from different elevation are usually more serious than falls on the same level. These too, can be caused by slipping and tripping but are also caused by many other factors such as misjudging a step or a grab bar on a piece of heavy equipment, over-reaching a ladder or scaffold, not tying a ladder off properly, faulty handrails on scaffolds, not using safety belts when we should; you can name many more.
