## **Feedback on CSLB Inquiry on Requiring Reporting of Judgments**

In last week's update, I reported that SB 465 (Hill), Chapter 372, Statutes of 2016, which took effect earlier this month is tasked with, among other things, to:

Require the CSLB to consult with licensees, consumers, and other interested stakeholders in order to prepare a study of judgments, arbitration awards, and settlements that were the result of claims for construction defects for rental residential units. By January 1, 2018 the CSLB is to report to the Legislature the results of this study to determine if the Board's ability to protect the public would be enhanced by regulations requiring licensees to report judgments, arbitration awards, or settlement payments of those claims.

In pursuit of accomplishing this task, the CSLB has reached out to the public et. al. to seek input on the question of whether there should be a mandate to require contractors to report all judgments, arbitration awards, or settlement payment of those claims and if so, starting at what amount?

The 'ink had hardly dried' on last week's update before I received the following thoughtful reply of concern from my good friend and colleague, Barney Kamine of the Kamine Construction Law Firm, which I have already forwarded to the CSLB:

"Unintended consequences department:

If Krs must report all construction defect settlements to CSLB AND IF THAT INFORMATION ROUTINELY BECOMES PUBLIC KNOWLEDGE, then fear of the damage public disclosure will have on Krs' business will discourage Krs from settling construction defect cases. THAT will severely harm consumers, who will have to take their cases to trial, instead of settling them, AND WORSE, since most construction defect cases are accepted by attorneys on a sliding scale contingency fee, consumers will have more trouble finding lawyers and will get less at the end than they would had they settled along the way. In sum, the proposal may cause more harm to consumers (and contractors) in the long run."

I am very interested (as is the CSLB) in hearing from as many of you about this matter as possible. Please send your comments to: [phil@pvgov.com](mailto:phil@pvgov.com) I will make sure they are passed along to the CSLB.

**Remember, Contractors Licensing Center is your one-stop 'shop' for ALL of your licensing, incorporation and business needs. Please don't hesitate to contact us to inquire as to how we may be of assistance to you and your company.**

01/25/2017

## **BUSINESS UPDATES**

### **Democrats pave the way toward spending \$1 trillion on roads, ports and other projects**

A lot more money could fuel improvements to California's highways, airports and rail lines under a 10-year, trillion-dollar infrastructure plan proposed Tuesday by Senate Democrats.

The ambitious but broad-stroke Democratic plan amounts to an opening bid, nudging the White House and congressional Republicans to start down the road toward a major infrastructure bill that California lawmakers would help write. "We must do it," Rep. John Garamendi, D-Walnut Grove, said in an interview Tuesday. "The question is, how do we pay for it?"

The Senate Democrats' plan asserts it can be paid for by "closing tax loopholes used by corporations and super wealthy individuals to offset associated costs," a notion that provokes deep skepticism among Republicans. California Gov. Jerry Brown has already identified \$59 billion in needed improvements and maintenance for the state's roads, highways and bridges. Garamendi on Tuesday promoted other projects that range from fixing Central Valley flood-control levees to deepening the Stockton and Sacramento ports.

"We have roads and tunnels and railroads and even a dam that the president could help us with," Brown said Tuesday in his State of the State speech, adding that "we can all work together, here in Sacramento and in Washington, as well."

President Donald Trump's team has compiled a list of about 50 infrastructure projects nationwide, totaling at least \$137.5 billion, as the new White House tries to determine its investment priorities, according to documents obtained by McClatchy's Kansas City Star and The Tacoma News Tribune. The documents, circulated within the congressional and business communities, offer a first glimpse at which projects around the country might get funding if Trump follows through on his campaign promise to renew America's crumbling highways, airports, dams and bridges.

Among the projects are three in California: the Cadiz water conveyance project proposed for the Mojave Desert, a Huntington Beach desalinization plant and the TransWest Express Transmission Project, an electric transmission system in Southern California, Nevada and Arizona.

Still other California infrastructure projects, from high-speed rail to the proposed WaterFix tunnels under the Sacramento-San Joaquin Delta, would incite far more controversy if proposed for inclusion. While Trump has lamented that "we have nothing" comparable to China's high-speed rail, for instance, House Republicans have sought to block California's project.

Many Republicans seem on board with the general idea of investing in infrastructure. House Majority Leader Kevin McCarthy of Bakersfield has already identified it as one of the top priorities for the House of Representatives for the first 100 days of the new Congress, along with regulatory, tax and health care revisions.

"You've got to make sure that America has the infrastructure in the 21st century to be able to compete," McCarthy said Sunday on "The Cats Roundtable," a New York AM radio show.

Trump, too, touted during the campaign his intention to "transform America's crumbling infrastructure" and make "investments in transportation, clean water, a modern and reliable electricity grid," among other projects.

Turning Waste Into Resources

## CUSTOMER NOTICE

### MATERIALS RECOVERY FACILITY CLOSURE

#### FEBRUARY - OCTOBER 2017

Access to the Materials Recovery Facility (MRF) will be limited during construction and installation of new equipment. Customers will be accommodated in the MRF when possible or redirected to other areas.

To maximize recycling, designated areas will be available to customers at the MRF for the following separated materials:

- Asphalt
- Concrete
- Drywall
- Metal
- Wood
- Yard Trimmings

For customers who require a guaranteed minimum 65% recycling level on their mixed load of construction and demolition material\*, the MRWMD will transfer these loads to a San Jose processor. The cost for this service is \$90 per ton. An extra Leadership in Energy and Environmental Design (LEED) point will be given to projects using this facility.

For information on the MRF closure, weekly updates will be available at [www.mrwmd.org](http://www.mrwmd.org) and at the Scale House. For guidelines on proper material separation and a complete list of fees, please refer to the MRWMD Disposal Fees brochure available at the Scales and on the website.

Thank you for your patience during construction.

\*Mixed construction and demolition material is defined as materials (usually hauled by debris box trucks and contractors) that contain more than 50% by weight or volume, recyclable items, which include: lumber, sheet-rock, concrete, brick, tile, granite, rigid plastics, cardboard, paper, metals, brush and trees, rock, asphalt, windows, appliances and toilets.

## NEW JUVENILE HALL PROJECT

**Addenda: 6**

**2/9/17 2:00 PM 16-02767 8811 Salinas \$37,000,002 to \$38,200,000**

831-755-4806 831-755-4958

Plan Issuer: County of Monterey

Prebid Conf: MAND 12/16 2 pm @ site

Class B. This Type II New Juvenile Hall Project will replace the original late 1950's facility. The new facility will be constructed in phases with existing buildings being demolished to make way for the new recreation yard and support buildings. Upon completion, the facility will provide approximately 63,438 square feet (sf) of total building area and approximately 100,108 sf of site improvements on 9.217± acres of the greater 38.407± acres of county owned land in Salinas. The completed 120-bed facility will be laid out in a campus style design with a central 1-1/4 acre recreation yard surrounded by four housing buildings and support buildings. Two new 30-bed medium security housing buildings will be approximately 7,176 sf with single and double rooms, and the new 30-bed high-security housing building will be approximately 9,715 sf with single and double rooms. Each new housing building will have three 10-bed housing units with connecting dayroom and showers surrounding a central multi-purpose room, staff-support spaces, and an outdoor recreation area. Additionally, the high-security housing building will provide on-unit classrooms and a satellite medical exam room. The base project includes the renovation of the existing 4,775 sf medium-security dormitory housing building; the renovation includes the remodel two existing housing units, one with 10 beds and one with 20 beds, with existing day room and programming space retained. Program services space will be provided at each housing building for education; religious services; counseling; substance abuse classes; group counseling; mental health evaluations; and, other programs to reduce recism. The new administration building provides spaces for contact and non-contact visitation; central control; medical facilities; staff offices; intake processing; release; staff training; staff locker rooms; staff break room; equipment storage; and, maintenance shop with direct access to the new juvenile hall campus. The project provides a new central kitchen, dining, laundry and warehouse building, and a school/gymnasium building with a teacher resource room, educational offices and staff support areas directly off a large recreational yard. Primary security and visual supervision for the new facility will be provided by the new central control room, which will utilize closed circuit television to provide visual control and assist in the control of the security perimeter fence line. Central control will have visual supervision of the housing units, attached outdoor exercise areas, and program spaces. Each new and existing housing unit will also be monitored by a smaller unit security station, located off the multi-purpose room.

### [RFQ - ON-CALL ENGINEERING CONSULTANT SERVICES FOR VARIOUS PUBLIC WORKS PROJECTS](#)

Addenda: 2

2/17/17	4:00 PM	17-00066	Hollister
---------	---------	----------	-----------

Plan Issuer: County of San Benito

831-636-4170

831-636-4176

This RFQ is for on-call engineering and engineering support services as may be necessary for public works projects in the County. These services include general civil and transportation engineering, structural engineering, geotechnical engineering and materials testing, water resources engineering, construction engineering/management, and surveying.

It is the intent of the County to engage one or more consultants to provide professional services as described herein. However, the County reserves the right, at its sole discretion, to terminate this RFQ process or negotiations with a selected consultant and either perform the work with its staff or begin a new RFQ process. Nothing herein, or in this process, shall be construed as having obligated the County to pay for any expenses incurred by respondents to this RFQ, or to the selected consultant(s).

<b><u>JOC FOR FACILITIES - MINOR CAPITAL OUTLAY PROJECTS</u></b>						
	<b>2/16/17</b>	<b>2:00 PM</b>	16-02951	JOC 16-042	San Luis Obispo	<b>Addenda: 0</b>
Plan Issuer:	Cal Poly Facilities Planning & Capital Projects				805-756-2581	805-756-7566

Prebid Conf: MAND 12/15 10:30 am @ Calpoly, Facilities Building (#070), Room 110

A JOC is a competitively bid, firm fixed-priced, indefinite quantity contract. The scope of work includes a collection of detailed repair and construction tasks and specifications that have established unit prices. Contractors are bidding on a mark-up, not on a project cost. The University intends to enter into a JOC agreement with the successful bidder for the accomplishment of repair, alteration, modernization, rehabilitation, demolition and minor construction of infrastructure, buildings, structures, or other public works.

JOC Contract Documents will be available on CD at no cost to contractors. The CD will be distributed to those contractors who attend the Mandatory First Pre-Bid Conference. Please Note: This is the only way to receive contract documents for the Job Order Contract. They will not be available before the Mandatory Pre-Bid Conference and will not be mailed, with the exception of additional sets requested by attendees after the Mandatory Pre-Bid Conference.

Bidders must be prequalified with the Trustees. Contractors shall register and log in to "PlanetBids" to apply for prequalification at [http://www.calstate.edu/cpdc/cm/contractor\\_prequal\\_bidders.shtml](http://www.calstate.edu/cpdc/cm/contractor_prequal_bidders.shtml).

	<b>2/16/17</b>	<b>3:00 PM</b>	17-00092	1405	San Luis Obispo	<b>Addenda: 0</b>

Prebid Conf: 1/25 @ 10am- 1585 Kansas Avenue, San Luis Obispo

The County of San Luis Obispo (County) is currently soliciting Requests for Proposals (RFP) from qualified firms to provide comprehensive Project/Construction Management (PM/CM) services with Master Architectural (MA) Services for the New County Fire and Sheriff Co-Located Dispatch Facility to be constructed through a Design/Build (D/B) delivery process.

The purpose of the RFP is to award an all-inclusive consultant contract to provide the County with project management and architectural services from the project needs assessment and facility programming through architectural design bridging documents, Design/Build proposal selection, design evaluation and negotiation processes, and ultimately through construction including project closeout. The intent is to administer services under one contract for a consultant team with the PM/CM as the primary lead firm, and the Master Architectural and other consultant services as necessary provided either within the PM/CM firm, or as a sub-consultant to the PM/CM firm.

## TRAFFIC SIGNAL MODIFICATION AT SOUTH DE ANZA BOULEVARD & RODRIGUES AVENUE

**Addenda: 0**

**1/31/17 2:00 PM** 17-00033 74,366.08A Cupertino \$95,000

Plan Issuer: City of Cupertino DPW

408-777-3354

Modifying existing traffic signal at S. De Anza Blvd and Rodrigues Avenue per the plans and specifications. This intersection is maintained by the City of Cupertino. Modifications consist of removing existing traffic signal standards and roadway lighting electroliers, relocating existing traffic signal equipment and roadway signs, furnishing and installing all hardware for proposed signal modification; such as traffic signal standards, poles, pull boxes, foundations, signal and pedestrian indications, wiring, conduits, mast arm-mounted signs, etc., to provide a fully operational modified signal and related striping, signing, wheelchair ramps, sidewalk, AC pavement, curb & gutter, and traffic control.

Prebid Conf: MAND 2/7 at 10AM						
Prep existing floor by removing existing muslin "ground cloth". Remove all staples from the wood holding ground cloth to the stage floor, the floor will need to be patched after removing old scenic show items installed into the floor. Full sanding of the existing wood floor planks and patches to provide a smooth surface before the hardboard is installed. Install approximately 120 sheet of 1/4" tempered both sides hardboard countersunk screwed to the existing stage floor. Precise cuts around floor pockets, trap floor platforms, and other items at edges will be required. The hard board at the wings on either side downstage of the proscenium will require to be glued to the existing concrete floor for a smooth transition from side stage wing to stage floor and orchestra lift. Replace both existing fire doors at proscenium wall with new thresholds so doors can clear new floor surface. The new floor will be painted with two coats of theatrical floor paint.

As the UC Santa Cruz campus continues to mature, improving parking infrastructure throughout the campus is imperative. With increases in enrollment, additional parking solutions are needed. The campus currently has approximately 5,000 parking spaces, with as many as 2,100 (net) potential new parking spaces envisioned by 2020. At this time the University seeks a qualified civil engineering/landscape architect team to provide planning, design and construction administration consulting services to assist in addressing this need.

Still have not seen a Sasquatch, but urban legend says it's out there. What you hear or believe may not always be the right answer as our Delaware contractor learns. We 'shock' a Nevada contractor and help another in California understand why two 'rights' written in the rules make one wrong...

Q: We are a Delaware Limited Liability Company (LLC) looking to obtain a California license. Being that we are not at all familiar with California's licensing requirements, we contacted our attorney for more information and he informed us that even if you hire somebody who has the requisite license (we are looking at the "B" General Building license), you have to go the Secretary of State and the State Licensing Board, and go through what sounds like a 6-8 month qualification program, which would include financial auditing of the company, before the State will recognize the license as being credited to the company. After further research, I found your website and just wanted to confirm my attorney is giving us correct information.

A: It is true that even if you have an employee who has the appropriate license, you will still register with the Secretary of State and apply with the Contractor's State License Board (CSLB). While it's possible for the licensing process to take 6-8 months for various reasons, the standard process usually takes closer to 2-3 months. Further, the CSLB does not perform any financial auditing of the company when you apply for a Contractor's License.

Q: In Nevada, my company holds an "A-17" (Lines to Transmit Electricity) license. What type of license is required for erecting cell towers in California?

A: The "A" or General Engineering classification would be the most appropriate license for installing cell towers in California.

Q: If my past customers like my work and refer me to one of their friends and I end up closing a sale, it appears that I can pay them a referral fee of let's say 500.00; because they are not under any licensing authority and not another contractor. I just want to make sure this is ok. While B&P Code Section 7157(d) clearly states that it is not legal for one contractor to pay any type of inducement (i.e. kickback) to another contractor, the law apparently does not include non-contractors.

A: You are correct that referral fees, sometimes called inducements or kickbacks, are not permitted from one contractor to another. However that being said #1, if you refer to the rest of Code Section 7157, specifically 7157(a), a contractor cannot give compensation or reward of any kind (except as referred to in subsection (b)) to an owner for referring sales involving Home Improvement Contracts.

#2, Subsection (b) allows a contractor or salesperson to give «tangible items to prospective customers for advertising or sales promotion purposes where the gift is not conditioned upon obtaining a contract for home improvement work if the gift does not exceed a value of five dollars (\$5) and only one such gift is given in connection with any single transaction." Therefore, the scenario you suggested in which you give your customers compensation of \$500 for referring your services is wrong and not permitted.

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email [info@cutredtape.com](mailto:info@cutredtape.com), or write us at Capitol Services, Inc., 1225 8th St. Ste. 500, Sacramento, CA 95814. Research past columns at [www.cutredtape.com](http://www.cutredtape.com).

# Safety Tip of the Week

## ACCIDENT INVESTIGATION

An accident investigation is required whenever a serious incident happens on the job. The less time intervening between the accident and the investigation, the more accurate the information that can be obtained. Facts are more accurate because people have not had time to become biased by the opinions of others, memories are clearer and more details are remembered.

Why do we investigate an accident? The reason is to obtain accurate information about what happened. What events led up to the accident; who was involved with the work; did anyone fail to follow procedures or did a piece of material or equipment fail? This information will be used to develop a conclusion regarding the physical cause of the accident.

Conditions at an accident scene are the only things that change faster than the opinions that evolve when there is a delay in compiling the facts. Much evidence is lost because it is removed from or altered at the accident site before any notice of it is taken or any record made. The contact phase of an accident is brief and initiates a wide spectrum of activity. People responding to an accident generally react rather than respond. Injured people are moved or removed for treatment. Equipment and other items are moved about to assist in the treatment of the injured party, and to provide passage or restore work. Prompt arrival at the scene allows the investigator to observe evidence before it has been removed or altered.

Since we all learn from accidents, the investigation will help us bring all the facts together, your input and involvement will help to assure that the necessary steps are taken to try to prevent a similar occurrence. All of us can learn from our mistakes. Make an effort to detect any existing hazards or improper procedures and report them to your foreman or supervisor immediately. Accidents are unplanned events, near misses let us know that there is a potential problem, and thorough accident investigations help us prevent recurrences.

**EVERY EXTENSION CORD MUST HAVE A GROUND PRONG. HAVE YOU INSPECTED THE CORDS YOU USE?**

# Discount Fuel Program for CCBA Members

The Flyers Fuel Program offers member discounts of 2-5 cents per gallon at over 240,000 gas stations throughout the United States. In addition, you can utilize their Fleet Management System that helps members control costs, set limits on fuel services, and streamline reporting. Contact Irish Chapman to sign up today to sign up or to get your free fuel cost analysis.

- 5 cents per gallon discount at CFN sites
- 2 cents at gas stations everywhere
