BUSINESS UPDATES

Sacramento is poised for a building boom. Now it just needs construction workers

Some young people should forget about packing boxes at an Amazon warehouse or going to college, construction leaders say. Instead, they should join the building trades.

The Sacramento region needs more than 7,000 workers annually in construction and related fields in the next four years – many of whom can make \$30 to \$40 an hour without a four-year college degree, according to a new report by Valley Vision and the Centers of Excellence at Los Rios Community College District.

The six-county area is short of about 2,000 carpenters, 600 electricians and 500 heavy equipment operators each year through 2021, the report says. Plumbers, painters and masonry workers are in short supply, too.

Part of the need stems from growth in the housing and commercial construction sectors, including big projects such as the redevelopment of Sacramento's historic downtown railyard. Aging and retiring workers are leaving an even larger gap.

Employers are having a tough time filling skilled positions, which generally require some advanced education along with on-the-job training. The shortage hurts the local economy and helps drive up housing prices by delaying development, researchers said.

Another major reason that the region is so "woefully undersupplied" in skilled construction workers, the report said, is that last decade's recession and housing collapse drove the majority of tradespeople out of the industry or forced them to leave the state to find work.

Many who remained now commute to the Bay Area for its significantly higher wages, despite the two-hour drive each way.

"We're recovering from a recession. We lost a lot of the workforce at that time. Now we've got projects ready to go and we have a (labor) pipeline shortage," said Trish Kelly, managing director at Valley Vision. The nonprofit focuses on improving the quality of life in the Sacramento region, including through research.

Building activity tends to come in waves in Sacramento, with recessions severely limiting it and housing booms greatly increasing it.

"When you have boom and bust cycles, it drives people away," Kelly said. "Obviously there's a lot of thought about how we build a longer-term pipeline and smooth out the cycles."

The labor shortage may actually help to extend the current recovery cycle by slowing the pace of construction, some experts said.

The rebuilding efforts in Napa and Sonoma counties, where forest fires destroyed thousands of homes and businesses last year, will likely pull away more local workers. Large-scale state infrastructure projects such as high-speed rail and highway upgrades could also draw on the local labor pool.

"One of our barriers to employment is that (Sacramento) wages haven't gone up enough to the point where a person says, 'It doesn't make sense to commute,' " said Rick Larkey, executive director of the North State Building Industry Foundation, a group that's been working with area high schools and builders to develop internship and training programs.

Part of the message to high school juniors and seniors – and to their parents – is that skilled trades are at least worth considering as alternatives to college and that a four-year degree isn't the guarantee of success it used to be.

"We've been able to demonstrate to parents and students and educators the value of trades," Larkey said.

This is BIG -- Faster Takeoff Just Got Slashed 50%

Whoa, hold the phone! The fastest, most accurate takeoff around just got slashed 50% --

Thanks to a deep discount secured by your contractors association! This exclusive offer allows you to step up and go pro with On-Screen Takeoff® (OST), the industry's leading takeoff tool.

What's the catch? Just great discounts. New customers can get 50% off OST with the purchase of training, also priced ridiculously low at only \$200 -- a 75% discount. The speed and efficiency of digital takeoff just got more affordable.

Don't delay -- this limited, exclusive offer won't last.

CASTROVILLE AND SEASIDE PUMP STATIONS WET WELL CLEANING PROJECT

Addenda: 1

2/13/18 2:00 PM 18-00150 Monterey County

Plan Issuer: Monterey One Water yohana@my1water.org 831-883-6182 831-883-0516

Prebid Conf: MAND 1/31 @ 10am- 14811 Del Monte Blvd, Marina

The Castroville Pump Station Wet Well was last cleaned in 2010 and the Seaside Pump Station was last cleaned in the early 2000's. This work requires the removal of grease and grit material from the wet wells and cleaning of all interior surfaces. Figures 1 through 4 are drawings showing the vicinity maps, location of each pump station relative to the drying beds at the Regional Treatment Plant that are to be used for the disposal of materials removed, and a drawing of each of the Pump Stations. Entering the wet well will be necessary and it should be noted that this work is considered a "Permit Required" confined space entry requiring the contractor to provide qualified attendant and rescue personnel outside of the wet well, including all of the necessary confined space, atmospheric testing, and rescue equipment.

JOB ORDER CONTRACT AT CSU MONTEREY BAY

Addenda: 1

2/14/18 2:00 PM 17-02855 MB-2017005 Seaside \$1,000,000 to \$3,000,000

Prebid Conf: MAND 12/12 @ 10:30am- 4314 6th Ave, Seaside

*** Contact the Central Coast Builders Association for the Construction Task Catalog and the Technical Specs.

A Job Order Contract is a competitively bid, firm fixed priced, indefinite quantity contract. The scope of work includes a collection of detailed repair and construction tasks and specifications that have established unit prices. It is placed with the "Contractor" for the accomplishment of repair, alteration, modernization, maintenance, rehabilitation, demolition and construction of infrastructure, buildings, structures, or other real property. Work is awarded by issuance of a purchase order against the JOC. Under the JOC concept, the Contractor furnishes all management, documentation, labor, materials, and equipment needed to perform the work.

NATIVIDAD MEDICAL CENTER RADIOLOGY MODERNIZATION

Addenda: 2

2/22/18 2:00 PM 17-02765 Project No. 9600-54; Bid Salinas \$8,500,000 to \$10,500,000
No. NMC-1013

Plan Issuer: County of Monterey - Natividad Medical Center griffinb@natividad.com 831-783-2605 831-757-2592

Prebid Conf: MAND 12/19 @ 10am - Building 500

Tenant improvements to NMC's Radiology Department in Bldg. 500 on the 1st Floor ; a three-story hospital facility located at 1441 Constitution Blvd., Salinas, CA 93912; as follows:

Base Bid:

- Remodel 14,333 sq. ft. of an existing operational hospital radiology department per project plans and specifications including preparations for and coordination with installation of imaging equipment by the Natividad Medical Center's imaging vendor(s)
- Tie-ins to existing hospital systems located beyond the immediate project area.
- Provision of new hospital systems with new headends as shown and specified including:
 - Mechanical systems Building Management System (BMS)
 - Nurse Call and Code Blue system
 - Master Clock
- Install two exterior chiller units with modifications to existing exhaust fans and associated electrical and piping work on the roof of Bldg. 500, including a new structural concrete support and mechanical pad, revisions to roof slopes and roof patching to accommodate the new and modified roof top equipment. Use of a large crane located to the west of Bldg. 500 for placement of the chiller equipment is anticipated.
- Remove an existing MRI cryogen vent extending from the 1st Floor to the roof and install a new MRI cryogen vent including associated tenant improvements on the 2nd and 3rd Floors.
- Install new piping and electrical utilities between the new rooftop chillers and the 1st Floor including preparation work needed for access and installation.
- Pre-construction air balancing of spaces served by air handlers and fans serving the 1st Floor Radiology Department, which includes some spaces on the 2nd and 3rd Floors and portions of the 1st Floor outside of the Radiology Department.
- The work requires and shall be phased construction as shown in the project plans to maintain Radiology's 24 hours a day, 7 days a week operation.
- The work is permitted by OSHPD as an OSHPD 1 project and is subject to OSHPD construction compliance and interpretations for OSHPD 1 construction.

2/15/18	2:00 PM	18-00177	P52635		Freedom	\$967,500	
Plan Issuer: County of Santa Cruz						831-454-2160	831-454-2385
Prebid Conf: 1/31 @ 1:30pm- Trembley Lane off of Green Valley Rd, Freedom							
This project will replace the dry pumps at the Trembley lift station with submersible pumps located in a new wet well in the Trembley Lane right-of-way. In addition to the new wet well, the project includes the construction of a valve vault, flow meter vault, gravity sewer pipes connecting to the new wet well, a new force main (replacing the existing force main in Trembley Lane), electrical conduit, and associate incidental work. The new pumps and associated equipment will connect to the existing control panel, PG&E service, and generator currently located at the project site.

National Joint Powers Alliance®
Invitation for Bid
Indefinite Quantity Construction Contract

The National Joint Powers Alliance® (NJPA) issues this Invitation For Bid (IFB) on behalf of, and to provide Indefinite Quantity Construction Contracting (IQCC) services to all current and potential NJPA Members including all government agencies, education agencies to include colleges and universities, and non-profit agencies in the Imperial, San Diego, Southland, Central Coast, Central Valley, and Bay Areas in the State of California. It is the intention of NJPA to award multiple contracts for general building, general engineering, electrical, mechanical, roofing, and painting construction services in these areas. Each contract has an estimated annual value of \$4,700,000 and the maximum term of the contract is four years.

IQCC is a construction contracting procurement system that provides facility owners' access to competitively bid "on-call" general contractors to provide immediate construction services over an extended period of time.

Intending bidders are required to attend a pre-bid seminar which shall be conducted for the purpose of discussing the IQCC procurement system, the contract documents, and bid forms. Attendance at one of the seminars is a mandatory condition of bidding.

2/20/2018	10:00 A.M.	San Diego Housing Commission, 4 th Floor Conference Room 426 1122 Broadway, San Diego, CA. 92101 Attendees meet on 5th floor lobby to be escorted to CM 426
2/21/2018	10:00 A.M.	Riverside Centre, 1st Floor Business Centre 3403 10 th St. Riverside, CA 92501
2/22/2018	10:00 A.M.	Fresno City Hall, Room CH 4N-4017 2600 Fresno St. Fresno, CA. 93721
2/23/2018	9:00 A.M.	Louden Nelson Community Center, Room 7 301 Center Street Santa Cruz, CA. 95060

Intending bidders can pre-register for the pre-bid seminar by visiting our website at www.NJPA.co/eziqc-pre-bid-registration.

An electronic (CD) copy of the IFB Documents which include the instructions for submitting a bid and the bid documents may be obtained by letter of request to Joseph Morgan, NJPA, 202 12th Street NE, Staples, MN 56479, or by visiting our website at www.njpacoop.org/eziqc-bid-document-request selecting the desired bid documents from the drop down list and completing the requested information. All requests must include; **mailing address, email address, contact name, phone number**. Bids are due by 4:30 pm CST on March 06, 2018 and will be opened at 9:00 am CST on March 07, 2018. IFB Documents will be available until March 02, 2018.

Some things in law don't seem to make sense but it's how the rules are 'interpreted' that really matter to our first contractor. I will 'excel' as expert in offering not one, but two solutions for a contractor, then 'multiply' for another before 'adding' up our last answer...

Q: My company does a specialized type of work where we place hybrid fiber-coaxial ("HFC") systems underground. The underground placement will be 36" to 48" deep in the ground. We will not be connecting the HFC to the head end or central office so there is absolutely no low voltage electrical work involved by our company. The connection of the HFC to head end/central office is completed by a different company.

A: According to the CSLB, even though you are not electrifying the cabling, a "C-7" (Low Voltage) license would be needed to perform the work you described.

Q: I am going to be purchasing a Landscaping company and I need someone with a "C-27" license to act as my Qualifier. Is there a way to order a list of all Active (Landscaping) licenses in my area from the CSLB? I'm hoping they have it in an Excel format.

A: Yes, there are two ways to do this. The CSLB has a new feature on their website which allows you to search all contractors with a particular classification in a specific area/zip code. With this feature, you put in the city or area code you are interested in as well as the classification of licensee you are inquiring about. You will get a randomly generated list of contractors meeting your parameters. You can then choose the entire list or pick and choose contractors to make a smaller list, and then download it on to an Excel spreadsheet. The other option is to request the data from the CSLB with a Public Sales Custom Order form. This allows you further parameters, such as if you want all of Southern CA (as opposed to just one city/zip code), or if you only want Sole

Proprietors license information (as opposed to all business entities), etc. The CSLB will generate the data in the form of a CD/DVD, which can then be formatted in to an Excel spreadsheet. The downside to this second option is the CSLB charges a \$245.00 fee.

Q: We currently have a "C-8" (Glazing) contractor's license in the name of our corporation with a 'dba' (doing business as) name attached. We use this license for the installation of windows. Another side to our business manufactures and sells windows and doors, which doesn't require a contractor license. Can we operate under a different 'dba' name for the sales side of the business even though it's the same corporation?

A: Yes, a corporation can operate with *multiple* 'dba' names. You should check with your county to inquire about what registrations are required.

Q: I have a "C-7" (Low Voltage) license in CA and I need to obtain my NV Contractor's license. I found out electrical classifications are not reciprocal so I'm in the process of having my customers fill out the required references for me. The problem is my jobs are very sporadic. I haven't had continuous work over the last ten years, sometimes with several months in between each job. Is that going to be a problem?

A: No, it all adds up. Nevada requires that you have at least four years of full time work experience within the last ten years. Your experience does not have to be consecutive, but the dates on the references must cover a period of at least four years.

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email info@cutredtape.com, or write us at Capitol Services, Inc., 1225 8th St. Ste. 500, Sacramento, CA 95814. EARN CASH BACK ON EACH PRODUCT YOU INSTALL

Over 80+ Partners offer builder incentives exclusively through **HomeSphere's national rebate program**. Start collecting rebates on building essentials today!

HOW THE HOMESPHERE PROGRAM WORKS:

CONNECT

Choose from 80+ Preferred Partner brands across 23 product categories to earn rebates. Continue to purchase products locally.

TRACK

Your local HomeSphere expert will help you efficiently track your closings by community, lot and block.

COLLECT

HomeSphere bundles your rebate incentives together across all products and brands in a single check.

It's Easy to Get Started!

Set a 10-minute meeting with your local HomeSphere Expert who will walk you through:

1. Your Builder Profile & Latest Closed Homes
2. Your Enrollment Form
3. Your W-9 Form

WHAT'S IN IT FOR YOU:

- Get access to Single-Family and Multi-Family Rebates
- Bundle all your rebates into one monthly check
- Continue to increase your rebate check through HomeSphere's network of building product manufacturers

BUNDLE AND EARN MORE

Your cash back can grow. Tap in to HomeSphere's network of 80 manufacturers and brands to increase your rebate check, including:

Your Local Plan Room Just Got Better!!

STATEWIDE ACCESS

Introducing the Golden State Plan Service

- **Single Statewide Plan Room** - You choose the counties you want to see. No more searching multiple Plan Rooms for projects
- **Keep the Plan Room You Know & Use** Your company bidding history & saved projects are preserved
- **Updated Plan Room Platform 2.0** - Increased functionality, ease of use & updated search options. You told us what you wanted - **WE IMPROVED**
- **More Private Projects**- Our collaboration means more cultivation of private work
- **Mobile Device Accessible** - Take your plan room with you

Your local, community based Exchange has always been the best resource for the local construction industry. Now your local exchange just got BETTER and STRONGER. This new plan room combines 14 of the best exchanges in the state, decades of local plan room experience with our local relationship and resources to bring you the most comprehensive plan room available. Our plans aren't uploaded from one central location, rather each exchange cultivates its local relationships to bring the best projects from each region to our contractors.

LOCALLY GROUNDED - STATE POWERED

Safety Tip of the Week

MOTOR VEHICLES

Ensure safe driving by including an inspection of any motor vehicle you drive, on or off the job. Check all lights, brake lights and turn signals; be sure that windshield wipers, the horn, and if applicable, the back-up warning device are in working order. Check the brakes, both the foot pedal as well as the hand brake. Check the status of the inspection sticker. Check the oil and make sure you have enough fuel. Report any defective or broken parts on company vehicles to your supervisor.

As the driver or operator you are responsible to make sure that all bins are closed, the load is secure, and the area is CLEAR before moving the vehicle. Extreme caution must be used when backing vehicles. Turn around instead of backing up whenever possible. If you must back-up and you have someone riding with you, have your passenger get out and direct you so you can back-up safely. When backing a vehicle in the vicinity of other workers or in a congested area, a signal person should always be used.

The operator must observe posted speed limits. Many accidents are caused by driving too slowly as well as too fast. Use turn signals when turning and when pulling out onto the road or highway. It is the responsibility of every employee who drives a company motor vehicle to be licensed, and to know and obey all state and local regulations pertaining to its operation.

Always carry your driver's license with you. Many states also require that the vehicle registration be carried in your car, van or truck. Every person who operates a motor vehicle has an obligation to themselves, their family, their employer, other drivers and pedestrians to operate their vehicle in a safe and courteous manner. Be a defensive driver! Make allowances for mistakes, lack of skill and lack of knowledge on the part of the other driver. Control your temper and be alert at all times, looking far enough ahead to recognize and avoid impending situations. You're in the driver's seat -- a lot rests on your shoulders. DRIVE DEFENSIVELY!

SEAT BELTS SAVE LIVES! BUCKLE UP - THE LIFE YOU SAVE MAY BE YOUR OWN!

Discount Fuel Program for CCBA Members

The Flyers Fuel Program offers member discounts of 2-5 cents per gallon at over 240,000 gas stations throughout the United States. In addition, you can utilize their Fleet Management System that helps members control costs, set limits on fuel services, and streamline reporting. Contact Irish Chapman to sign up today to sign up or to get your free fuel cost analysis.

- 5 cents per gallon discount at CFN sites
- 2 cents at gas stations everywhere
