CERTIFIED CPR/FIRST AID TRAINING

SPONSORED BY THE CENTRAL COAST BUILDERS ASSOCIATION

American Red Cross Certified

**Monday, April 3, 2017
8:00 AM—12:00 PM**

Bi-Lingual Instructor: PEDRO ALFARO

Mr. Alfaro has a Bachelor of Science degree in Nutrition and has been a Health Educator for over 20 years. He volunteered for the Los Angeles American Red Cross Chapter for CPR/First Aid for over 3 years. He was with the Monterey County Health Department for 12 years.

**Cost: \$70 members
\$85 non-members**

*****fee will be applied for a "no show"**

**ONLY 10 SPOTS AVAILABLE!
RESERVE YOUR SPOT NOW!**

Employers have a legal obligation to establish an effective injury and illness prevention program to promote health and safety in the workplace. Complying with safe and healthful work practices, includes first aid kits easily accessible to each work area, and training of at least one employee on each shift currently qualified to render first aid. Contractors are required, by law, to have an employee certified in CPR/ First Aid on each job site. Sessions have limited space so register early.

This course is designed to provide skills in CPR, First Aid & Automated External Defibrillation (AED). Students will learn adult CPR, rescue breathing and choke saving. Upon successful completion, students will receive the American Red Cross CPR & First Aid Certificate. Both CPR & First Aid Certificates are valid for 2 Years.

SEXUAL HARASSMENT PREVENTION

DATE: MAY 17TH 2017

ENGLISH: 3:00PM – 5:00PM

SPANISH: 1:00PM – 3:00PM

LOCATION: CCBA

242 E. ROMIE LN, SALINAS CA 93901

COST: \$25.00

"Sexual Harassment is never pretty."

"Stop it, before it gets ugly."

Description: The state of California requires sexual harassment training for all supervisory employees. Studies estimate one in four women will experience sexual harassment on the job. The U.S. Supreme Court has ruled that even if an employer is unaware of sexual harassment taking place the employer's liability remains. All companies that don't train their managers on sexual harassment are subject to lawsuits and other liabilities. You will learn how to define, recognize and prevent sexual harassment in the workplace. While it may be impossible to completely prevent harassment and discrimination claims and lawsuits, this course can help minimize potential workplace conflicts and complaints before they arise which will help reduce your companies liability exposure.

Hollister

Plan Issuer: County of San Benito

831-636-4170

831-636-4176

This RFQ is for on-call engineering and engineering support services as may be necessary for public works projects in the County. These services include general civil and transportation engineering, structural engineering, geotechnical engineering and materials testing, water resources engineering, construction engineering/management, and surveying.

It is the intent of the County to engage one or more consultants to provide professional services as described herein. However, the County reserves the right, at its sole discretion, to terminate this RFQ process or negotiations with a selected consultant and either perform the work with its staff or begin a new RFQ process. Nothing herein, or in this process, shall be construed as having obligated the County to pay for any expenses incurred by respondents to this RFQ, or to the selected consultant(s).

HIGHWAY 1 GATEWAY MONUMENTS PROJECT

Addenda: 3

2/28/17 2:00 PM 17-00273 CASB06-6096(038)

San Luis Obispo
County

Plan Issuer: ASAP Reprographics

805-772-6921

The work includes the construction of three community gateway monument signs along or adjacent to State Route 1 (SR 1), one each near the southbound entry to San Luis Obispo, the southbound entry to Cambria, and the northbound entry to San Simeon.

At each location, the sign itself is the majority of the project. However, the following may be considered ancillary components:

- San Luis Obispo: landscaping, low-water-use drip irrigation, lighting, and a sidewalk on the Ferrini Rd., and (subject to Bid Alternate) Chorro St., frontages
- Cambria (subject to Bid Alternate): no additional features; immediate area around sign will be re-seeded with Caltrans-approved hydroseed mix as necessary.
- San Simeon: landscaping

NEW EDWINA BENNER PLAZA (ONLINE)

Addenda: 1

3/9/17 2:00 PM 17-00394 Sunnyvale 925-820-0600 925-820-1993

Plan Issuer: Roberts-Obayashi Corporation

The demolition and abatement have already been contracted for. For the purpose of this bid, assume this work will be complete prior to the April start. The rock and gravel under the existing building slab on grade, concrete flatwork and asphalt paving will remain to be removed under this Contract. The roots for the trees will need to be removed under this Contract.

Construct residential building for affordable housing that will occupy most of the site and an emergency vehicle access (EVA) road along the western property line. The proposed residential building will consist of three stories of wood-framed residential units constructed above one level of at-grade concrete podium.

This is a Prevailing Wwage project.

Available ONLINE ONLY

The at-grade concrete podium will consist of parking space, office space, and common space.

Bidders:

- Concrete Curb and Gutters
- Concrete Flatwork
- Asphalt Grinding
- Subdivision Site Work Development
- Structures

When the State Legislature 'rains' new law on the contractor parade making their intent clear can get a little murky. Sometimes those rules and regulations for contractors are as clear as...mud! Let's dig into this 'legislative' 'mud' to clarify some questions that seem to bubble up regularly! It may seem familiar, but consider it 'continuing education'...

Q: I have a scenario to run by you that I'm hoping you have some insight on. There is a local hardware store which has contracts with tradespeople (mostly licensed contractors, some unlicensed 'handymen') that stipulate a fixed percentage fee to be paid from any jobs being referred to that tradesperson.

They are a licensed General Contractor. They are also a Hardware Store. Is it legal for them to accept referral fees from Licensed GCs?

If it's not legal, would canceling the GC license make it legal?

A: Referral fees exceeding \$5 between two contractors for the procurement of a home improvement contract are unlawful.

However, in discussions with the CSLB, if the hardware store is acting as a retail establishment and not a contractor the prohibition would not apply. The hardware store does not need to cancel their license, only not have contracted with the homeowner. For example, if they responded to a plumbing leak and then referred a general contractor to repair the water damage.

Q: We have a "C-61"/"D-28" (Doors, Gates, and Activating Devices) license and install automatic gate systems. I would estimate that at least 75% of our competition comes from contractors with licenses other than the correct one. These include Fencing, Structural Steel, Electrical, and Ornamental Iron licenses. They are even hired by GCs to install automatic gates. It seems to me that as long as a company has a license of some kind, the CSLB leaves them alone. This can easily be ascertained by looking at advertising and checking what license they have. We are not looking to create enemies, but the automatic gate industry has safety standards that these companies either ignore or don't know about, creating the possibility of serious injury to the public.

A: There are actually several classifications that are authorized to install all or part of automatic gate systems.

In addition to the "C-61"/"D-28" classification, a "C-28" (Locks and Security Equipment) can perform this work, and excluding the electrical components, a "C-13" Fencing Contractor can install the gates. A

"C-10" (Electrical) contractor can install the motors that run the automatic gates.

If there are other contractors performing this work "out of classification", the CSLB would need a formal complaint filed so they can investigate it. The public, including licensed contractors, are the 'eyes and ears' of law enforcement.

Q: Several years ago my license was revoked for reasons that I won't get into and since then I've been working for another licensed company. I'd like to get my license back, is that possible?

A: It's possible. You need to re-apply for the license and as long as it's been under 5 years since the revocation you would not need to re-test. To re-instate the license you would have to show proof that you have fully complied with the terms and conditions of the revocation. In addition, you will likely need to post a Disciplinary Bond in addition to the Contractor's Bond. If you are applying under the same entity with the same personnel, and the entity is in good standing with the Secretary of State, you can request that the license number be re-issued.

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email info@cutredtape.com, or write us at Capitol Services, Inc., 1225 8th St. Ste. 500, Sacramento, CA 95814. SMART EFFICIENCY FINANCING IS HERE

A better, faster way to pay
for your home upgrades

Why CaliforniaFIRST?

**Easy
Financing**

**Government
Supported**

**Trusted
Contractors**

**Lower
Utility Bills**

CaliforniaFIRST is a public/private financing program that provides upfront funding for home energy efficiency, renewable energy, and water saving improvements. Simply apply, complete your projects, and repay on your property taxes over the course of up to 25 years.

CaliforniaFIRST is a Property Assessed Clean Energy (PACE) program. This innovative form of financing was created in partnership with state and local governments to encourage energy and water efficiency and to create jobs. And because CaliforniaFIRST is government supported, we're able to offer affordable long-term financing.

After looking at a number of different ways to finance the work, CaliforniaFIRST offered by far the best choice. I can make my home more comfortable and more energy efficient and maybe even increase its value. It's a win all around!

Safety Tip of the Week

FLOOR & WALL OPENINGS

These safety requirements pertain to construction activities and are not to be used as design criteria for permanent structures. They cover construction work area conditions where there is the danger of employees or materials falling through floor, roof or wall openings.

Floor openings into which persons can accidentally walk shall be guarded by either a standard railing with standard toe board on all exposed sides, or a floor hole cover of standard strength and construction. The cover must also be secured to guard against accidental displacement. While the cover is not in place, the hole must be protected by a standard railing.

Wall openings from which there is a drop of more than 4 feet shall be guarded by a standard rail. In addition to the above, every open-sided floor or platform 6 feet or more above the adjacent floor or ground level shall be guarded by a standard railing or equivalent on all open sides, except where there is an entrance to a ramp, stairway or fixed ladder.

The definition of a standard railing is a railing consisting of a top rail, intermediate rail, toe board and posts, with a vertical height of approximately 42 inches from the upper surface of the top rail to the floor, platform, runway, or ramp level. The top rail should be smooth surfaced throughout the length of the railing. The intermediate rail shall be halfway between top rail and the floor, platform, runway or ramp. The ends of the rails shall not overhang terminal posts except where such overhang does not constitute a projection hazard. Wood railings, pipe railings, and structural steel railings are all acceptable, but please note that you may not use re-bar for railings because of its brittleness and unpredictable strength. One additional method is the use of 1/2" wire rope, provided it is installed properly with a minimum of deflection. Standard guardrails must be capable of withstanding a 200 pound load in any direction.

All railings and covers must be checked routinely and repaired as needed.

NEVER LEAN ON A RAILING - IF IT FAILS YOU COULD FALL AND BE SERIOUSLY INJURED
