Respirable Crystalline Silica — New OSHA Rule

Effective June 23, 2017

- Establish and implement a written exposure control plan
- Designate a competent person to implement the written exposure control plan
- Restrict housekeeping practices that expose workers to silica
- Offer medical exams
- Train workers on work operations that result in silica exposure and ways to limit exposure
- Keep records of workers' silica exposure and medical exams

Training for supervisors and competent persons. A focused class on the new requirements and how to establish and implement a written exposure control plan. Certificate of training will be issued.

IT'S FREE!!

Learn The Law!

Mechanic Liens

Stop Notices & Bond Claims

Construction liens, stop notices and bonds are some of the murkiest areas of law for owners, contractors, sub contractors and suppliers. Handling construction payment disputes can be a turbulent process, but armed with the necessary legal knowledge you can successfully position your company to collect the amounts due.

Attend this seminar to learn strategies for tackling lien, stop notices and bond issues in private and public projects!

What you will learn:

How to preserve your rights to file stop notices & make claim on payment bonds.

How to prepare the liens, stop notices and bond claims.

Where to file the liens.

How to serve stop notices and bond claims.

What you need to do once you are paid.

The next steps to take if the lien/stop notice or bond claim does not result in payment.

About your instructor: Anne K. Secker

Anne is a Principle at Noland, Hammerly, Etienne & Hoss. A significant part of her practice includes representing contractors, subcontractors, material suppliers, owners, architects, engineers, and design professionals in construction-related matters.

Certified CPR/First Aid Training

Sponsored by the Central Coast Builders Association

American Red Cross Certified

Wednesday, May 23, 2018
1:00 PM - 4:00 PM

Bi-Lingual Instructor: PEDRO ALFARO
Mr. Alfaro has a Bachelor of Science degree in Nutrition and has been a Health Educator for over 20 years. He volunteered for the Los Angeles American Red Cross Chapter for CPR/First Aid for over 3 years. He was with the Monterey County Health Department for 12 years.

**Cost: \$70 members
\$85 non-members**

***fee will be applied for a "no show"
**ONLY 15 SPOTS AVAILABLE!
RESERVE YOUR SPOT NOW!**

Employers have a legal obligation to establish an effective injury and illness prevention program to promote health and safety in the workplace. Complying with safe and healthful work practices, includes first aid kits easily accessible to each work area, and training of at least one employee on each shift currently qualified to render first aid. Contractors are required, by law, to have an employee certified in CPR/First Aid on each job site. Sessions have limited space so register early.

This course is designed to provide skills in CPR, First Aid & Automated External Defibrillation (AED). Students will learn adult CPR, rescue breathing and choke saving. Upon successful completion, students will receive the American Red Cross CPR & First Aid Certificate. Both CPR & First Aid Certificates are valid for 2 Years.

POINT SAN LUIS LIGHTHOUSE ROAD SEAL COAT

Addenda: 0

3/13/18 1:40 PM 18-00414 Avila Beach

Plan Issuer: Port San Luis Harbor District 805-595-5400 805-595-5404

Prebid Conf: MAND 3/5 @ 1:30pm- 3950 Avila Beach Dr

Port San Luis Harbor District is requesting sealed bids to provide hot asphalt based crack fill and seal coating for Lighthouse Road (Marlin Stebbins Road) which starts at Diablo Canyon Road and ends at the roundabout at the Point San Luis Lighthouse, which is also included. The seal coating is to include all berms located along the road. The road is approximately 1.67 miles and 10 feet wide for the majority of the distance. The total square footage to be sealed is estimated at 100,000 square feet with an additional 5,000 square feet for the roundabout and 650 square feet to be paved with 3 inches of asphalt with 6" grade 2 base next to the roundabout. The contractor will need to sweep and remove surface debris before the seal coat is applied. Curbs and berms are to be cleared of vegetation as well. See Exhibit A for specifications.

SANTA CRUZ HARBOR PILE REPAIR AND REPLACEMENT - PHASE 1 - 2018

Addenda: 0

3/16/18 10:00 AM 18-00529 Santa Cruz

Plan Issuer: Santa Cruz Port District scpd@santacruzharbor.org 831-475-6161 831-475-9558

Work required as part of this project consists, in general, of removal and replacement of sixty-five (65), 14" to 16" OD piles ranging in length from 50 to 75 feet, pile guides and appurtenant hardware with cast concrete piles. Pile driving work will be accomplished with a 1.5-inch diameter water jet pipe system, and then seated as necessary for embedment relative to geotechnical conditions using a dynamic hammer. Work shall be performed in accordance with all permits, including, but not limited to completion of all work by November 30, 2018; deployment of silt booms for turbidity control prior to pile removal and installation; and a limit of 6 piles per workday. Contractor shall retain biologist(s) for required pre-construction survey, training and on-site monitoring during construction. Access to portions of the work will require use of small boat(s) and a floating barge for workers and pile driving equipment.

National Joint Powers Alliance®
Invitation for Bid
Indefinite Quantity Construction Contract

The National Joint Powers Alliance® (NJPA) issues this Invitation For Bid (IFB) on behalf of, and to provide Indefinite Quantity Construction Contracting (IQCC) services to all current and potential NJPA Members including all government agencies, education agencies to include colleges and universities, and non-profit agencies in the Imperial, San Diego, Southland, Central Coast, Central Valley, and Bay Areas in the State of California. It is the intention of NJPA to award multiple contracts for general building, general engineering, electrical, mechanical, roofing, and painting construction services in these areas. Each contract has an estimated annual value of \$4,700,000 and the maximum term of the contract is four years.

IQCC is a construction contracting procurement system that provides facility owners' access to competitively bid "on-call" general contractors to provide immediate construction services over an extended period of time.

Intending bidders are required to attend a pre-bid seminar which shall be conducted for the purpose of discussing the IQCC procurement system, the contract documents, and bid forms. Attendance at one of the seminars is a mandatory condition of bidding.

|------------------|-------------------|---|
| 2/20/2018 | 10:00 A.M. | San Diego Housing Commission, 4 th Floor Conference Room 426
1122 Broadway,
San Diego, CA. 92101
Attendees meet on 5th floor lobby to be escorted to CM 426 |
| 2/21/2018 | 10:00 A.M. | Riverside Centre, 1st Floor Business Centre
3403 10 th St.
Riverside, CA 92501 |
| 2/22/2018 | 10:00 A.M. | Fresno City Hall, Room CH 4N-4017
2600 Fresno St.
Fresno, CA. 93721 |
| 2/23/2018 | 9:00 A.M. | Louden Nelson Community Center, Room 7
301 Center Street
Santa Cruz, CA. 95060 |

Intending bidders can pre-register for the pre-bid seminar by visiting our website at www.NJPA.co/eziqc-pre-bid-registration.

An electronic (CD) copy of the IFB Documents which include the instructions for submitting a bid and the bid documents may be obtained by letter of request to Joseph Morgan, NJPA, 202 12th Street NE, Staples, MN 56479, or by visiting our website at www.njpacoop.org/eziqc-bid-document-request selecting the desired bid documents from the drop down list and completing the requested information. All requests must include; **mailing address, email address, contact name, phone number**. Bids are due by 4:30 pm CST on March 06, 2018 and will be opened at 9:00 am CST on March 07, 2018. IFB Documents will be available until March 02, 2018.

One for all and all for one, these contractors get served a 'split'. Another venture gets a short answer on a 'joint' license bid, and a 'hyper' contractor gets to chill on his worries!...

Q: We have a Joint Venture (JV) license made up of three entities. One of the entities is no longer a part of the JV, so we are going to be filing a Disassociation for that entity. Will we (meaning the remaining two entities) be able to keep the same license number? I ask because we are in the middle of a large job.

A: You will not be able to keep the same license number. Joint Ventures are viewed as "partnerships" and once you make a change to the structure of a partnership license, the license is cancelled. You will need to apply for a new license, however you can request a continuance for the existing license in order to complete work currently in process.

Q: We have a Joint Venture license between two companies. We will be bidding on a project which has a requirement of the contractor to hold a valid "A" (General Engineering) and "B" (General Building) license. If one entity holds a "B" license and the other holds the "A" and a "B", I assume that would be acceptable to bid on the project as long as the portion of the work related to the "A" classification is only performed by the entity with the General Engineering license?

A: Yes that is acceptable.

Q: We received our Bond and fee letter from the CSLB. It states the business name on the Bonds should match exactly what is on the application. On the CSLB's pending application query, our entity is listed in all capital letters with no comma. Our business name as filed with the Secretary of State is not in all caps and it contains a comma, which is how the Bonds were issued. I know this a hyper-technical question, but I remember a couple of years ago the Board gave us a hard time with our Worker's Comp certificate because our broker had put a comma in our business name. Should I request the Bonds be re-issued?

A: No, they will be fine. The CSLB always uses all caps for business names, and they do not use punctuation (commas and periods) regardless of how you are registered with the Secretary of State.

Q: We just received our renewal notice in the mail. We have two Qualifiers listed on the application and three Officers. Do all individuals listed need to sign?

A: No. Both Qualifiers will need to sign as well as one Officer, unless one of the Qualifiers is an Officer, in which case only the Qualifiers will be required to sign.

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email info@cutredtape.com, or write us at Capitol Services, Inc., 1225 8th St. Ste. 500, Sacramento, CA 95814. MILWAUKEE is committed to providing drain cleaning professionals with the most portable and versatile drain cleaning solutions. Through a thorough evaluation of the job at hand - the frustrations, needs, previous limitations - MILWAUKEE sets out to completely rethink a solution, delivering game-changing innovation. Whether it be expanding equipment capabilities with interchangeable drums, instant set up with cordless power, or fully enclosed drums for best mess containment, providing the best solution for the line. MILWAUKEE is committed to developing solutions that improve the ability for drain cleaning professionals to service more calls with less hassle.

EARN CASH BACK ON EACH PRODUCT YOU INSTALL

Over 80+ Partners offer builder incentives exclusively through **HomeSphere's national rebate program**. Start collecting rebates on building essentials today!

HOW THE HOMESPHERE PROGRAM WORKS:

CONNECT

Choose from 80+ Preferred Partner brands across 23 product categories to earn rebates. Continue to purchase products locally.

TRACK

Your local HomeSphere expert will help you efficiently track your closings by community, lot and block.

COLLECT

HomeSphere bundles your rebate incentives together across all products and brands in a single check.

It's Easy to Get Started!

Set a 10-minute meeting with your local HomeSphere Expert who will walk you through:

1. Your Builder Profile & Latest Closed Homes
2. Your Enrollment Form
3. Your W-9 Form

WHAT'S IN IT FOR YOU:

- Get access to Single-Family and Multi-Family Rebates
- Bundle all your rebates into one monthly check
- Continue to increase your rebate check through HomeSphere's network of building product manufacturers

BUNDLE AND EARN MORE

Your cash back can grow. Tap in to HomeSphere's network of 80 manufacturers and brands to increase your rebate check, including:

Your Local Plan Room Just Got Better!!

STATEWIDE ACCESS

Introducing the Golden State Plan Service

- **Single Statewide Plan Room** - You choose the counties you want to see. No more searching multiple Plan Rooms for projects
- **Keep the Plan Room You Know & Use** Your company bidding history & saved projects are preserved
- **Updated Plan Room Platform 2.0** - Increased functionality, ease of use & updated search options. You told us what you wanted - **WE IMPROVED**
- **More Private Projects**- Our collaboration means more cultivation of private work
- **Mobile Device Accessible** - Take your plan room with you

Your local, community based Exchange has always been the best resource for the local construction industry. Now your local exchange just got BETTER and STRONGER. This new plan room combines 14 of the best exchanges in the state, decades of local plan room experience with our local relationship and resources to bring you the most comprehensive plan room available. Our plans aren't uploaded from one central location, rather each exchange cultivates its local relationships to bring the best projects from each region to our contractors.

LOCALLY GROUNDED - STATE POWERED

Safety Tip of the Week

CONCRETE AND MASONRY CONSTRUCTION

Let's review some of the safety requirements for concrete and masonry construction. Do not place any loads on any portion of a concrete structure until your employer has determined that it is capable of supporting those loads. This determination must be based on information provided by someone who is qualified in structural design [1926.701(a)].

All protruding reinforcing steel, onto and into which someone could fall, has to be guarded to eliminate the hazard of impalement. (Note: It should be understood that the little plastic end caps commonly found on rebar do not prevent impalement; they are there primarily to prevent injuries from occurring while handling there bar. And the orange caps without the steel embeds may not prevent an impalement injury.)

Do not ride on or in concrete buckets. A loaded bucket weighs about as much as a full-sized pick-up truck -- you certainly wouldn't want to be under one if it fell. Employees are not permitted to work under concrete buckets while they are being raised or lowered into position -- so make sure that you don't. Plan the route for elevated concrete buckets so that as few employees as possible are underneath them.

Formwork must be designed, fabricated, erected, supported, and maintained so that it is capable of supporting all loads, vertical & horizontal, that may be applied to it

If a masonry wall over 8 ft. high is not adequately supported by itself or another structure then it has to be braced to prevent it from tipping over or collapsing. You have to keep that bracing in place until the wall is permanently supported by the rest of the structure. A limited access zone must be established before starting to construct a masonry wall. The zone must be 4 ft. wider than the height of the wall, run the entire length of the wall, and be on the unscaffolded side of the wall. Only those employees who are actively engaged in constructing the wall may enter the zone. The limited access zone must remain until the wall is adequately supported to prevent overturning or collapse.

WET CONCRETE CONDUCTS ELECTRICITY, SO BE ALERT WHEN USING BULL FLOATS; CONTACT BETWEEN THE FLOAT HANDLE AND ELECTRIC WIRES COULD BE DISASTROUS.
