BUSINESS UPDATES

New Federal Log 300 Rules Don't Yet Apply in California; Change Coming

In 2016, the federal Occupational Safety and Health Administration (federal OSHA) issued a final rule relating to the tracking and reporting of workplace injuries. The final rule requires electronic submission of injury and illness data, also known as the *Log 300*, that employers currently report on paper forms. This rule also requires strict anti-retaliation protections for employees who report work-related injuries or illnesses.

The federal electronic reporting rule took effect on January 1, 2017, for states that federal OSHA regulates, and they had to start electronically submitting records.

However, federal OSHA has given states that operate their own safety and health programs, such as California, extra time to implement the new requirements.

According to Cal/OSHA, California employers are not required to follow the new federal requirements and will not be required to do so until “substantially similar” state regulations go through the formal rulemaking, adoption and approval process.

Cal/OSHA drafted a proposed rulemaking package to conform to the revised federal OSHA regulations. The package is being reviewed internally before the formal rulemaking process and public comment period begins.

Until Cal/OSHA implements the federal changes here in California, the federal rules will not be enforced. Employers should be on the lookout for California’s implementation of these federal rules.

EMPLOYMENT LAW

California Supreme Court Set to Address Fate of Independent Contracting

The Future of Work: A Surging Demand for Independent Contractors

Recent years have seen tremendous growth in the sharing economy, aka, the “gig economy,” which reflects the technological ability to quickly summon goods or services through a smart phone. While the new economy has grown rapidly, the relevant legal standards have not. Yet business owners continue to invest heavily into business models that have created tens of thousands of flexible jobs for workers classified as independent contractors. In the absence of legislative guidance tailored to the realities of the new economy, California courts and administrative agencies have struggled to apply the law developed during an earlier age.

The new economy is a powerful fact of life. According to Seyfarth’s “Future of Work” Outlook Survey, 45% of respondents expect their company’s demand for independent contractors to grow in the next five years. Companies in the areas of information technology and telecommunications are among those most likely to experience these developments, as opposed to companies in the areas of real estate and consumer staples. (A deeper analysis of our survey’s findings appears here.)

JOB DESCRIPTION

Home Repair Foreman **Minor Home Repair Program**

Habitat for Humanity Monterey Bay

Habitat for Humanity Monterey Bay (HMB) is a local affiliate of Habitat for Humanity International. We build and repair homes for low-income households in the Santa Cruz and Monterey County area. HMB has been active in the community for 27 years.

HMB is starting a Minor Home Repair program in the community of Pajaro located in north Monterey County across the Pajaro River from Watsonville. Monterey County has awarded HMB funds to finance the Minor Home Repair Program. HMB will be hiring a part-time Repair Foreman to manage this program.

The Repair Foreman must be bilingual (speak Spanish and English) and will be responsible for running the many different aspects of the program. This will include outreach work in the community to encourage residents to apply to the program, site visits to determine the home repair needs of the applicants, preparing a cost estimate for the work to be done, and overseeing the actual repair work to be completed. Some repair jobs will need to be completed by the Repair Foreman, but whenever possible we will involve volunteers to assist in the repair work. The supervision of the volunteers will be the responsibility of the Repair Foreman.

Minor home repairs will primarily be on the exterior of homes and may include: landscaping, yard clean-up, repairs to fences, porches, constructing wheel chair ramps, painting the exterior of homes and more. If there are critical repairs to be made to the inside of the house, the Repair Foreman may have to make those repairs him/herself, without volunteer assistance, or refer the work to private subcontractors.

We plan on assisting a minimum of 18 homeowners (not rentals) in the community of Pajaro, during a twelve-month period between July 1, 2017 and June 30, 2018. The program is initially funded for only one year of operation. We are hopeful that additional funding will allow us to continue and expand the program.

We anticipate that the program will require 16 hours per week or 2 to 2 ½ days of work each week. Working on Saturdays is a requirement of the job because that is the best day for the participation of volunteers.

A work truck and construction tools will be provided for use on the job.

Responsible to: Construction Manager and Program Manager

Monterey County Licensed Contractors:

You're invited to Gonzales on Tuesday, July 4, 2017

**For the Gonzales Grows Green (G3) Sustainability Pavilion at the
4th of July Community Event**

**We are recruiting licensed contractors who service the Gonzales area to
provide a display and information on the benefits of:**

- **Installing solar & tankless water heating systems**
- **Replacing old heating systems with energy efficient systems
(90%+ efficiency range)**

**Space is available on a first-come-first served basis and we will give
priority placement for contractors who can provide a good visual display of
equipment or installation process.**

You will be sharing the area with companies, non-profits, and agencies who:

- **Install residential solar arrays**
- **Promote water conservation and pollution avoidance activities**
- **Provide weatherization and other energy savings services
at no-cost to qualified households**
- **Promote recycling and waste diversion from landfills**
- **Promote composting activities**

Please e-mail your interest in participation to:

Maury Treleven mtr11@outlook.com

Or Call her at 831-262-2156

Only contractors with a valid California contractor's license in good standing will be considered

SOLEDAD REGIONAL RECHARGE

Addenda: 3

5/22/17 11:00 AM 17-01012

Soledad

\$3,000,000

Prebid Conf: 5/4 @ 10:30am- 248 Main Street, Soledad

In general, the Project consists of:

- Open cut construction of approximately 4,200 linear feet of reinforced concrete and/or polypropylene pipe along Gabilan Drive and San Vicente Road in Soledad.
- Installation of new precast manholes and cast-in-place manholes.
- Removal and replacement of existing manholes.
- Making storm drain pipe connections between the new system and the existing system.
- Modifying the existing storm drain recharge basin by adding depth and re-grading.
- Installation of pipe inlet at the recharge basin from the proposed storm drain line to feed the recharge basin.
- Installation and grading of a 12 ft. wide access road from the top of the recharge basin to the bottom.
- Installation of underground detention system.

Notice is hereby given that the County Office has elected to participate in the California Uniform Public Construction Cost Accounting Act (CUPCCAA). Public projects, as defined by this Act and in accordance with the limits listed in Section 22032 of the Public Contract Code, will be let to contract by informal procedures as set forth in Section 22032-22045 of the Public Contract Code. All licensed contractors are invited to submit the name of their firm to the County Office for inclusion in the County Office's list of qualified bidders for Calendar Year 2017 (July 1, 2017- June 30, 2018).

Any and all questions regarding this procedure shall be submitted via US Mail at the above address or can be faxed to 831/649-3530 Attn: Lou Bartlett or emailed to loub@wrdarch.com.

LOWER HISTORIC PARK IMPROVEMENTS

Addenda: 0

6/6/17 2:00 PM 17-01215

Monterey

Plan Issuer: City Of Monterey

831-646-3877

\$472,900

831-646-3405

Prebid Conf: 5/23 @ 2pm- Lower Presidio Park adjacent to Serra Monument, Monterey

In general, the work consists of, but is not limited to, clearing and grubbing, sawcutting, demolition of existing improvements, grading, curb and gutter, concrete parking stalls, asphalt conforms, Decomposed Granite walkway, pavement markings, erosion control, ramps and handrails, and construction of new colored concrete walking paths. Work also includes stormwater control, tree protection, benches, and picnic table.

SSLOCSD CHERRY AVENUE PIPE BRIDGE MAINTENANCE PROJECT

Addenda: 1

5/22/17 2:00 PM 17-01080

Arroyo Grande

\$149,000 to \$249,000

805-489-6666

Plan Issuer: South San Luis Obispo County Sanitation District

Prebid Conf: MAND 5/15 9 am, @ the job site, see location Map

Pruning of vegetation and trees that obstruct access to the pipe bridge;

- Construction of a containment system that fully contains all material removed from the pipe bridge, and any debris and/or hazardous material that is generated during removal of the existing coatings and the application of new coatings. This containment system may be suspended from the existing pipe bridge. This containment system may not be supported by a temporary structure founded in the stream channel.

- Expose the buried portion of the carrier pipe at both ends of the bridge structure, completely remove the existing coating and re-coat with a 3-layer zinc/epoxy/urethane coating system, wrap the painted pipe with a wax tape and fiberglass outer wrap, and re-bury the pipe;

- Completely remove the existing coating from the structural steel members of the bridge and re-coat with a 3-layer zinc/epoxy/urethane coating system;

- Monitor environmental impacts and comply with all environmental regulations and project-specific requirements; and all work necessary to render the facility complete and operational.

The San Luis Obispo County Flood Control and Water Conservation District operates the Nacimiento Water Project Water Pipeline for several water contractors within the County of San Luis Obispo. One of the vertical turbine pumps at the Nacimiento Intake Pump Facility has seized and needs to be removed and sent to Weir Floway for repairs. The facility is located at the north side of the dam at Lake Nacimiento and contains five (5) 3,700 GPM Model 16DKL Weir Floway Pumps with 450 HP motors. The pumps are situated over a 20 ft. diameter wet well that is 180 ft. deep. The pump columns are in 20 ft. sections and there are 9 columns total per pump.

The San Luis Obispo County Flood Control and Water Conservation District is seeking proposals to remove one (1) vertical turbine pump, secure and load on a transport truck, ship to Weir Floway's repair facility, and re-install the pump once repairs have been made. Weir Floway will provide transport from their facility back to the Intake Pump Station.

Prebid Conf: MAND 6/7 1:30 pm @ 1055 Monterey Street, Room D361 (3rd Floor)

A Job Order Contract is a competitively bid, firm-fixed-price indefinite-quantity contract. It includes a collection of detailed repair and remodel tasks and specifications that have established unit prices. It is placed with a Contractor for the accomplishment of repair, alteration, modernization, rehabilitation, etc., of buildings, structures, or other real property. Ordering is accomplished by means of issuance of a Job Order against the Contract. The Job Order will reference the Detailed Scope of Work and set forth the Job Order Completion Time and the Job Order Price. The Contractor, under the JOC Contract, furnishes management, labor, materials, equipment and engineering support needed to perform the work unless stated otherwise.

The JOC Contract includes a Construction Task Catalog®. This CTC is based on the use of experienced labor and high quality materials. All of the unit prices incorporate prevailing local wage, equipment and materials cost data. The CTC is work segment based. The CTC also incorporates local activity, climate and geographic features.

The County selected The Gordian Group's Job Order Contracting Solution for their JOC Program. The Gordian JOC Solution includes proprietary eGordian® JOC Applications and Construction Task Catalog®, which shall be used by the Contractor to prepare and submit Job Order Proposals, subcontractor lists and other requirements specified by the County.

NEW [PIPE LOOP STUDY](#) **Addenda: 0**
6/2/17 4:00 PM 17-01290 Santa Cruz
Plan Issuer: City of Santa Cruz 831-420-5327 831-420-5201

The City of Santa Cruz Water Department in coordination with the Soquel Creek Water District and the Scotts Valley Water District, is soliciting Statements of Qualifications from consultants, individuals, or firms who can provide development and implementation of a pipe loop study. The purpose of awarding a pipe loop study contract is to evaluate the compatibility of City of Santa Cruz surface water with distribution system pipes from neighboring groundwater systems and to provide recommendations to mitigate the potential for corrosion or other adverse water quality changes. The City intends to award a pipe loop study contract for services that includes the design and implementation of a pipe loop corrosion evaluation, recommendations for system corrosion control strategies, and estimated corrosion control system costs.

Candidates will be evaluated on the information presented in the Statements of Qualifications, and a selection may be made from this evaluation alone. The Scope of Work for the project under the contract will be agreed to between the parties prior to initiation. The preliminary estimated cost of the project, as of the date this solicitation is being released, is \$500,000.

PREVAILING WAGE

DEVELOPMENT OF THE WASTEWATER TREATMENT FACILITY INFRASTRUCTURE AND MAJOR EQUIPMENT STUDY **Addenda: 1**
6/7/17 2:00 PM 17-01110 Santa Cruz
Plan Issuer: City of Santa Cruz ahogan@cityofsantacruz.com 831-420-5425 831-420-5161

Submit qualifications to perform an onsite condition survey of the Wastewater Treatment Facility infrastructure and major equipment. Document and analyze asset condition data in detailed asset database. Apply asset risk management strategies to develop long term Capital Improvement and maintenance programs.

- Culverts and Walls
- Golf Cart Path Work
- Concrete Curb and Gutters
- Concrete Flatwork
- Asphalt Grinding
- Subdivision Site Work Development

Now you see it, now you don't? What's the real news on business names and advertising? I will 'synthesize' the answer for a painting contractor, another gets the recipe for 'proof' pudding, and we 'tear down' the walls to expose the answer on a remediation contractor's question...

Q: I was told that contractors did not have to put signs on their trucks if they don't advertise, since a sign constitutes an advertisement. And plumbers, well drillers, and electrical sign installers had to also include their complete address on their truck sign. Your thoughts please?

A: Thank you for contacting Capitol Services. According to B&P Code Section 7029.5, every Plumbing contractor, Sign contractor, and drill rig used for drilling water wells, assuming the vehicle is used in their business and a commercial vehicle registration has been paid, must have his or her business name, permanent business address, and contractor's license number, all in letters and numerals not less than 1 1/2 inches high, displayed on both sides of their vehicle.

All other contractors not mentioned above shall display their business name and license number in a clearly visible location on the vehicle in print type of at least 72-point font or three-quarters of an inch in height and width. This only applies if the contractor is using the vehicle for their construction business and a commercial vehicle registration fee has been paid.

So in your case, the key would be whether your vehicle(s) are registered as commercial.

Q: I am a Painting contractor with a "C-33" license. Can I install Fiberglass Reinforced Plastic (FRP) panels or do I need a different license?

A: The "C-33" Painting classification would not be appropriate to install FRP's, the "C-61"/"D12" (Synthetic Products) would be most appropriate.

Q: I am applying for a second contractor's license in Nevada and when I called the NV Board they informed me that in-order for me to be the Qualifier on more than one license I would need to document

I own at least 25% of each entity. I own 30% of each, but when they say "document", what should I provide to show my ownership? The certificates of good standing from the Secretary of State don't mention ownership.

A: For proof of ownership you can provide Stock Certificates, Secretarial Certificates, or the Operating Agreements (assuming they mention ownership). Typically, these are internal documents and not "filed" with any State agencies. I hope this was helpful.

Q: My husband has been working for a water remediation contractor for the past 10 years and wants to obtain his own license for removing drywall from water damaged properties. What type of license is required for removing the drywall only?

A: The "C-61"/"D-64" Non-Specialized classification for Water Remediation is required when water damaged drywall, flooring, baseboard, cabinets, or other wet material is removed from a structure.

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email info@cutredtape.com, or write us at Capitol Services, Inc., 1225 8th St. Ste. 500, Sacramento, CA 95814. Research past columns at www.cutredtape.com.

SMART EFFICIENCY FINANCING IS HERE

A better, faster way to pay
for your home upgrades

Why CaliforniaFIRST?

**Easy
Financing**

**Government
Supported**

**Trusted
Contractors**

**Lower
Utility Bills**

CaliforniaFIRST is a public/private financing program that provides upfront funding for home energy efficiency, renewable energy, and water saving improvements. Simply apply, complete your projects, and repay on your property taxes over the course of up to 25 years.

CaliforniaFIRST is a Property Assessed Clean Energy (PACE) program. This innovative form of financing was created in partnership with state and local governments to encourage energy and water efficiency and to create jobs. And because CaliforniaFIRST is government supported, we're able to offer affordable long-term financing.

After looking at a number of different ways to finance the work, CaliforniaFIRST offered by far the best choice. I can make my home more comfortable and more energy efficient and maybe even increase its value. It's a win all around!

CHISPA Housing Management Maintenance Technician

CHMI is currently accepting applications for a Maintenance Technician to provide basic maintenance and repairs at various apartment developments throughout Monterey County.

Duties include: responding to service orders and requests for repairs, performing visual examination and operational tests to determine need for repair work and perform a wide variety of repairs involved in the upkeep of building, grounds and utilities. Repair duties may include repairs to plumbing fixtures such as sinks, toilets, tubs, and water faucets; repair and/or replacement of water heaters, stoves, refrigerators and other appliances, light carpentry, painting and preparing apartments for new tenants.

Qualifications: Must have basic knowledge of plumbing systems & carpentry, good problem solving skills and the ability to work independently. Must have a valid CA drivers license. Must be able to speak, read and write English. Ability to speak Spanish is desirable. Final candidates must successfully complete a pre-placement physical, drug test and background investigation.

Salary is \$19.05 per hour.

NEWTON CONSTRUCTION & MANAGEMENT

Project Superintendent

Provide overall on-site administrative and technical management on construction project site.

Schedule, coordinate and supervise craft employee activities.

Supervise total construction effort to ensure project is constructed in accordance with design, budget and schedule. Includes interfacing with client representatives, AE representatives, other contractors, etc. to keep fully updated, work through changes, etc., offer alternatives.

Plan, coordinate and supervise onsite functions (scheduling, engineering, material control, and may provide day-to-day direction of onsite, administrative staff in accounting, purchasing, etc.).

Four-year engineering degree or equivalent combinations of technical training and/or related experience.

The County of Monterey

Invites applications for the position of Building Inspector II.

Deadline to apply is 4/17/17

Safety Tip of the Week

PROTECTIVE FOOTWEAR

Today we are going to talk about protective footwear. You may or may not have given this much thought. Dressing right for work is similar to dressing right for sports -- no professional football player would take the field wearing dress shoes. Wearing the right shoes will help you do a better job; and do it more safely. The first thing to think about is the type of foot protection you are going to need. Construction work requires you to walk, stand, bend, stoop and climb; therefore it is imperative that you wear sturdy, comfortable footwear. Leather shoes and boots provide the best protection. Tennis shoes, sandals and flip-flops are not acceptable footwear on a construction site. Remember, your feet and toes are made up of many small bones, and just one object dropped on your foot can cause a serious, painful injury.

Another potential jobsite injury can occur by stepping on a nail or other sharp object. A protruding nail can puncture the top, side or sole of your boot in a split second if you are not careful. Safety boots come equipped with steel toes, heavy duty leather uppers and steel shanks to help prevent puncture wounds. Your footwear should fit your feet snugly and give your ankles adequate support. Good support will help prevent you from turning or twisting an ankle while moving around the job site.

Take a look at your feet right now. Are you wearing the right footwear for the job you are doing today? If you are working around protruding nails or other sharp objects, you should be wearing leather work boots with good soles. Are you working in concrete? If so, you need to be wearing rubber boots. Wet concrete on your feet will cause concrete burns. Make sure you wash your feet and put on a pair of clean socks if your feet come in contact with wet concrete. In cold weather it is important to keep your feet warm. Wear a comfortable pair of warm socks and keep a second pair available in case your feet get wet during the day. Get the message? Your feet take a beating every day. Make their job a little easier by wearing the right footwear.

SAFETY FOOTWEAR HELPS YOU AT WORK, DON'T FORGET TO PROTECT YOUR FEET OFF THE JOB AS WELL.
