Hello Members;

Great News, CCBA has put an offer on a new home!

As most of you are aware, in March of 2015 we sold our building on Quail Run and began looking for a new home while leasing from the new owners. It has been a life-long goal of our founding members to own a property free and clear of a mortgage. This move will enable the CCBA to concentrate on the mission of this organization.

I look forward to sharing with you the status of the purchase as we move forward. We hope to be moving at the end of the year and are excited about welcoming you all to our new facility.

Kind Regards,

Christie

Governor Signs Bill Providing Judges More Leeway in 7031 Cases

We are happy to report that the governor has signed AB 1793 (Holden) – Chapter 244 of 2016 Statutes which takes effect on January 1, 2017. We have written several times in the past about Section 7031 of the Business and Professions Code. As you may recall this is a draconian provision that requires that a contractor be “duly licensed” in the license classification for which work is being performed at all times. Unfortunately, unwitting contractors have faced financial ruin due to their license being suspended for reasons that often are out of their control (such as their license bond expiring due to an insurance broker’s mistake) only to learn that all of the money on a job has had to be paid back with interest because their license was suspended for even a short while and thus were not “duly licensed” for the entire time as required in Section 7031.

AB 1793 (Holden) was introduced this session at the behest of a large contractor who innocently merged several licenses under one for efficiency sake only to learn that they failed to obtain signed approval from the State of California (whom they were performing work for) to assign the contract to the new company. Consequently, they were not “duly licensed” and despite appeals to the contrary, appellate courts all the way through the California Supreme Court upheld the State of California’s claim that they did not have to pay the contractor due to 7031 (to the ‘tune’ of over \$20 million!).

Although AB 1793 helps provide the courts with more leeway to rule that a contractor who was unlicensed only briefly was indeed in substantial compliance with the law, it may be dubious at best to rely on a judge to understand the complexities of construction law necessary to rule in favor of a contractor (although, we want to stress, ANYTHING is helpful). The measure signed by the governor states:

This bill provides that the judicial doctrine of substantial compliance shall not apply where the person who engaged in the business or acted in the capacity of a contractor has never been a duly licensed contractor in this state. However, the court **MAY** determine that there has been substantial compliance with licensure requirements if it is shown that the person who engaged in the business or acted in the capacity of a contractor: (1) had been duly licensed as a contractor in this state prior to the performance of the act or contract; (2) acted reasonably and in good faith to maintain proper licensure; and (3) acted promptly and in good faith to remedy the failure to comply with the licensure requirements upon learning of the failure.

To read the Chaptered bill in its entirety, please go to:

http://ct3k1.capitoltrack.com/Bills/15Bills/asm/ab_1751-1800/ab_1793_bill_20160830_chaptered.pdf

Remember, Contractors Licensing Center is your one-stop ‘shop’ for ALL of your licensing, incorporation and business needs. Please don’t hesitate to contact us to inquire as to how we may be of assistance to you and your company.

FACILITY COATING MANAGEMENT PROJECT (YEAR 1)

Addenda: 1

9/15/16 2:00 PM 16-02161

Monterey County

Plan Issuer: Monterey Regional Water Pollution Control Agency jerry@mrwpca.com

831-883-6179

831-883-0516

Prebid Conf: 9/6 @ 11am- 14811 Del Monte Blvd, Marina

The Monterey Regional Water Pollution Control Agency, a California sanitation district and joint powers agency, is implementing a multiple year coating management program for coating maintenance of its facilities located throughout its regional service area. This Project, a Public Work, represents the first year's work of the second 10-year program. The project consists of industrial coating, facility repairs, and the maintenance and administration of a multiple year coating management program. Qualified bidders will be basing their bid on the program requirements for the first year's work. The project will go out to bid again after each year until the 10-year program is completed. Project requirements are defined in the Bidding Documents, but in general the work involves:

- The industrial coating of metal and non-metal surfaces within a number of facilities located throughout the MRWPCA service area. Many of the surfaces to be coated are located in "permit required" confined spaces and will involve working in elevated locations and within very limited space.
- Structural repair of damaged metal, reinforced concrete, and replacement of grout, including replacement of deteriorated bolts.
- Review and update of the Facility Coating Management Plan ("Maintenance Painting Program 2016 Annual Update" dated June 2016). August 1, 2016 00100-2
- "Annual maintenance" of previously coated areas.

Prebid Conf: MAND 9/15 @ 9am- 168 W. Alisal Street, Second Floor, Salinas

Job Order Contract(s) 2016 (JOC) is an indefinite quantity contract(s) pursuant to which Contractor performs a variety of projects, consisting of specific construction tasks. Scope is for general construction, repair, remodel, and other repetitive related work. County has published a Construction Task Catalog® (CTC) containing a series of construction tasks with preset Unit Prices (UP) developed using experienced labor and high quality materials. All UPs are based on local labor/materials/equipment prices, including current prevailing wages. Contractor is to bid Adjustment Factors (AF) to be applied to UPs. Price of an individual project is determined by multiplying preset UPs and appropriate quantities by the appropriate AFs. Term of each JOC is one (1) year.

Construction Task Catalog & Technical Specs are available upon request due to file size limits.

PROFESSIONAL ASSESSMENT, ENGINEERING, ENVIRONMENTAL, AND CONSTRUCTION SUPPORT SERVICES FOR PROGRAMMATIC REPAIRS TO MUNICIPAL WHARVES

Addenda: 0

10/13/16 4:00 PM 16-02244

Monterey

Plan Issuer: City of Monterey

831-646-3997

831-646-5686

The City of Monterey (City) is seeking comprehensive proposals for professional services from qualified firms to perform all necessary assessment, engineering, environmental, and construction support services for the implementation of a municipal wharf rehabilitation program. The scope of work shall include, in general, the range of services required to perform a programmatic assessment of the condition of the City's two municipal wharf structures (both above and below water line), recommended rehabilitation project, environmental and permitting of the recommended repair project and appropriate construction support. As currently envisioned, the selected team would create a program template that would be used for continued care and maintenance of the wharf structures from the deck to the sea floor.

Addenda: 0

12/30/16 5:00 PM 16-01553

Carmel

Plan Issuer: Carmel Unified School District dpaul@carmelunified.org

831-624-6311

Notice is hereby given that the Board of Education for the Carmel Unified School District has elected to utilize the alternative bidding procedures set forth in Public Contract Code section 22032 et seq. and shall develop and maintain a list of qualified contractors, identified according to categories of work, in accordance with the provisions of Public Contract Code section 22034 and criteria that the California Uniform Cost Accounting Commission promulgates from time to time. Notice is further provided that District is inviting all licensed contractors to submit the name of their firm to the District for inclusion on the District's list of qualified bidders for the 2016 calendar year.

Persons or companies interested in being included on the District's list of bidders for the 2016 calendar year shall provide the name and address to which a Notice to Contractors or Proposal should be mailed, a phone number at which the contractor may be reached, the type of work in which the contractor is interested in doing and currently licensed to do (earthwork, pipelines, electrical, painting, general building, etc.), together with the class of contractor's license(s) held and contractor license number(s).

Contractors interesting in being included on the District's list of bidders for the 2016 calendar year may submit the above-described information in person or by U.S. Mail to:

Carmel Unified School District

Attn: Dan Paul

PO Box 222700

Carmel, CA 93922

It is the sole responsibility of the person submitting such information in person or by U.S. Mail to ensure that is delivered to the District and includes all requested information. Any contractor providing a submittal that lacks the information set forth herein will not be added to the District's list of prequalified bidders for the 2016 calendar year.

Hollister

Plan Issuer: City of Hollister

831-636-4340

831-636-4349

The City of Hollister is requesting proposals for design services of the San Benito Street Phase 2 Improvements. The goal of these improvements is to provide additional pedestrian enhancements to the Historic Downtown District. These improvements are anticipated to consist of sidewalk improvements, corner improvements such as corner bulb outs, landscaping, crosswalk warning devices, ADA parking improvements and street furniture. The limits of this design project are proposed to be between Third Street and Hawkins Street and may involve the side streets to accommodate various improvements. In addition, the successful design engineer will be required to perform a pedestrian study on Fourth Street between San Benito Street and Westside Boulevard. The results of the study will be a plan for safe pedestrian crossings of Fourth Street utilizing enhanced lighting or other methods.

DESIGN-BUILD SERVICES FOR NEW FIRE BOAT STATION 35 AT PORT OF SAN FRANCISCO, PIERS 22.5 AND 24 - RFP (ONLINE)

Addenda: 2

9/26/16 2:00 PM 16-02276

SAN FRANCISCO

\$23,000,000 to \$28,100,000

415-554-6229

Plan Issuer: City & Co of San Francisco

Prebid Conf: 9/2 at 11 AM

1. The new Fire Boat Station Project includes programming, design and construction of:

a. A new single pier to replace existing Piers 22.5 and 24.

i. Existing Piers 22.5 and 24 will be demolished in their entirety, along with the existing structure atop Pier 22.5, along with the parking area adjacent to the existing historic structure.

ii. The new pier will be of floating steel barge construction.

iii. The new pier will be oriented at 90 degrees to the Embarcadero as illustrated in concept in Appendix H.

iv. Provide sufficient berthing and mooring for three fire boats, designed under individual design criteria corresponding to the use of each boat.

v. The environmental loading scenario should at a minimum consider the effects of wind; wind waves; swell; and current.

vi. Work platform or boarding float with a lowered section to align with the freeboard of the small craft.

vii. Launching equipment such as a jib crane or davit.

viii. The Project shall provide a secure Fire Station as well as public viewing access which does not interfere with or pose a hazard to Fire Operations.

b. All utilities necessary to operate the Fire Boat Station.

c. Fire Boat Station spaces including:

i. Marine DOC

ii. Night Watch and Communications

iii. Ambulance Staging and Circulation

iv. Rescue boat bay for smaller rescue craft such as skiffs and jet skis

v. Decontamination Room; Extractor and Drying Room

vi. Specialty Gear Storage

vii. Hot Work Room

viii. Firefighter living areas, including Kitchen; Dining; Day Room; Laundry Room; Firefighter's Dormitory; Locker and Restrooms

<u>PIPPIN APARTMENTS</u>							Addenda: 0
	9/19/16	5:00 PM	16-02240		Watsonville		
Plan Issuer: L & D Construction						408-292-0128	408-993-1511

L&D Construction is requesting hard bids for the Pippin Apartments project located at 56 Atkinson Lane in Watsonville, County of Santa Cruz. This is a 46-unit project spread across two parcels - a city parcel that fronts Atkinson Lane and a county parcel behind it. There is one 2-story building, one 3-story building, and one 4-story building. The buildings will have slab-on-grade foundations, cementitious siding, along with indoor and outdoor common areas. There are three (3) 1-BR units, twenty-nine (29) 2-BR units, and fourteen (14) 3-BR units. Site improvements will consist of constructing various landscape and hardscape improvements including site fencing, retaining wall, shared drive aisle and underground utilities with stormwater detention ponds. The site also backs up to a wetlands area with a 50' setback. Buildings 2 and 3 will have solar hot water systems and a PV system will be located in the parking area.

NOTICE TO INTERESTED GENERAL AND SPECIALTY CONTRACTORS

Addenda: 0

12/30/16 5:00 PM 16-00733

Santa Cruz County

Plan Issuer: Housing Authority of Santa Cruz Co.

831-454-5928

831-469-3719

The Housing Authority of the County of Santa Cruz requests responses from qualified General Contractors and Specialty Contractors, including but not limited to: Concrete, Electrical, Painting, Plumbing, Roofing and similar specialty classifications. The Housing Authority is developing a list of pre-qualified contractors to provide construction services for a variety of on-going facility maintenance and modification projects – including vacant unit turnovers, service work and similar. Contractors will be evaluated based on the nature of services required and the qualifications of the Contractor. Depending on nature and location of work, select prevailing wage rates will apply to jobs.

Interested Contractors must complete a "Contractor Information" form. Contractors must submit completed forms to the Housing Authority office located at:

Housing Authority of the County of Santa Cruz

2931 Mission St.

ATT: Peter Rogers

Santa Cruz, CA 95062

This Notice will remain open - there is no deadline for submitting a written "Contractor Information" forms.

Please contact Peter Rogers at 831-454-5928 with questions.

Speaking 'fluent' regulations is one part of it and keeping an ear to the ground is another when you are providing expert 'guidance' to contractors. Listening closely to what is said is always important...

I hear that CSLB would like to make contractor's aware of several things.

First, with the solar industry booming, the number of complaints the CSLB receives about deceptive solar practices continues to rise. In fact, while the Board received a mere 59 solar-related complaints in 2010, they received 535 complaints related to solar projects from January 2015 through May of 2016!

There are several areas in which the CSLB recommends that solar licensees pay attention to. Number one, the financing and contract/lease terms. Given the array of new and significant differences between the types of solar financing, it is extremely important that solar contractors provide their potential customer with a detailed breakdown of how much they can expect to pay by converting to a solar power system. The increased special financing programs to pay for energy efficiency projects has led to a rapid rise of misunderstandings. It is important for licensees to fully explain all the terms of these special financing options, which are sometimes attached to their property tax, often at a higher rate than could be obtained through a traditional lending institution.

The Contractor's Board also warns licensees to refrain from high-pressure sales tactics when contracting for solar installation.

Another source of complaints is solar contractors/salespeople making unrealistic claims regarding energy/money savings. Licensees should avoid overselling cost savings or solar energy system capabilities.

Lastly, be sure to follow the permit process. According to the Board's newsletter, "contractors with solar projects must submit design plans that comply with particular city, county, and/or utility standards, obtain the required building permits, and follow through with a safe, quality installation."

While most licensed solar contractors are honest and do their jobs well resulting in satisfied customers, it's good for consumers and contractors to be aware of what's out there.

Another item on the agenda in the Summer 2016 newsletter which contractors should be aware of is the CSLB is cracking down on up-selling. CSLB writes, "These predatory practices have been most prevalent in the warm-air, heating, ventilating, and air conditioning (HVAC) trade, but abuses can occur with almost any repair where a consumer only needing a relatively minor fix is talking into a major - and unnecessary - remedy."

The CSLB has trained their investigative staff to be on the lookout for these unscrupulous activities that cheat unsuspecting customers, particularly elderly persons. Investigators are watching for contractors who are called out to do simple inspections or modest repair which then somehow turn into unnecessary complete replacements. They are also on the lookout for contractors who are dishonestly claiming safety hazards needing immediate repair on products which are in fact in working condition.

The CSLB further warns, "although technically not considered a service and repair scam, CSLB is on the lookout for contractors that cut corners by sidestepping the permit and inspection process."

I will leave you with one final warning addressed in the Newsletter. The CSLB is aware that there are still a significant number of licensees who are not disclosing their license number when advertising. Whether your advertising online, on TV, radio, in print, or even your decal on the side of your truck, you must include your license number (B&P Code section 7030.5).

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email info@cutredtape.com, or write us at Capitol Services, Inc., 1225 8th St. Ste. 500, Sacramento, CA 95814. Are you covering the cost of your Employee's Individual Medical Policy?

Central Coast Builders Association

6/20/2014

Caution for Individual Policy Reimbursement

The IRS uses a FAQ on Employer Health Care Arrangements to highlight the potential liability for employers that, rather than establishing a group health plan, merely reimburse employees for the cost of their individual health plan premium.

Q1. What are the consequences to the employer if the employer does not establish a health insurance plan for its own employees, but reimburses those employees for premiums they pay for health insurance (either through a qualified health plan in the Marketplace or outside the Marketplace)?

The IRS makes it clear that the consequence is that the employer may face a penalty.

Specifically, as explained in [Notice 2013-54](#), employer reimbursement plans are considered to be group health plans and therefore subject to the market reforms, including the prohibition on annual limits for essential health benefits and the requirement to provide certain preventive care without cost sharing. Notice 2013-54 clarifies, however, that employer reimbursement plans cannot be integrated with individual policies to satisfy the market reforms.

Consequently, the employer may be subject to a \$100/day excise tax per applicable employee (which is \$36,500 per year, per employee) under [Code Sec. 4980D](#).

Let us help design your program to avoid this penalty.

*By Mike Carlson, Builders Association Health Plan
mcarlson@eraford.com or 415-755-6325*

*Changes to
expect:
...*

For plan years beginning on and after January 1, 2014, employers should carefully evaluate arrangements under which they reimburse employees for premiums, or are otherwise involved in the purchase of individual health insurance policies that provide non-excepted medical coverage (i.e., coverage that is subject to health care reform's mandates) for employees. These arrangements create significant compliance concerns under health care reform. Furthermore, these individual policies should not be paid for or reimbursed on a pre-tax basis under an employer's cafeteria plan. As described in more detail (left).

The Don Chapin Co. Inc is an equal opportunity employer. All applications will be considered.

Safety Tip of the Week

MSDS

A Material Safety Data Sheet (MSDS) is a short technical report that provides you with the known hazards of a specific material. They are written by chemical manufacturers for chemicals they produce or import. The purpose of a MSDS is to provide written information for the safe use and handling of a particular chemical. They may be written in different forms, but all are required to give you the following basic information:

- * Identification (chemical and physical)
- * Hazardous Ingredients
- * Physical and Chemical Characteristics
- * Emergency Procedures
- * First Aid or Medical Procedures
- * Manufacturer's Name, Address and Phone Number
- * Health Hazards
- * Physical Hazards (fire and explosion data)
- * Reactivity Data
- * Personal Protection Data
- * Spill and Leak Procedures
- * Waste Disposal Methods

State and Federal laws require that each employer keep these MSDS available at the work site for any hazardous chemical that you work with. Check with your supervisor for the location of the MSDS file on your job. Be sure to read the MSDS prior to working with any unfamiliar chemical to inform yourself of any hazards, and then follow all the manufacturer's recommendations. A Hazardous Material is any substance which is potentially toxic, incompatible with other substances, corrosive, explosive, flammable or combustible, or poses unusual physical hazards under normal use conditions or emergencies. Look at the label on chemical containers. If you see words like FLAMMABLE, DANGER, COMBUSTIBLE, HAZARDOUS, POISON, CAUTION or WARNING, then you know a MSDS is required. The MSDS will help you work safely with chemicals, but only if you read it.

CHEMICALS + MISUSE = DANGER

CHEMICALS + PRECAUTIONS = SAFETY

SMART EFFICIENCY FINANCING IS HERE

A better, faster way to pay
for your home upgrades

Why CaliforniaFIRST?

**Easy
Financing**

**Government
Supported**

**Trusted
Contractors**

**Lower
Utility Bills**

CaliforniaFIRST is a public/private financing program that provides upfront funding for home energy efficiency, renewable energy, and water saving improvements. Simply apply, complete your projects, and repay on your property taxes over the course of up to 25 years.

CaliforniaFIRST is a Property Assessed Clean Energy (PACE) program. This innovative form of financing was created in partnership with state and local governments to encourage energy and water efficiency and to create jobs. And because CaliforniaFIRST is government supported, we're able to offer affordable long-term financing.

After looking at a number of different ways to finance the work, CaliforniaFIRST offered by far the best choice. I can make my home more comfortable and more energy efficient and maybe even increase its value. It's a win all around!

Workers Compensation Insurance

Developed by California Exchanges for the Construction Industry

Golden State Builders Exchanges (GSBE) in partnership with Tangram Insurance Services is excited to present a new insurance program developed specifically for the construction industry. Golden State Builders Exchanges (GSBE) Contractor Program, Powered by Tangram, is committed to improving the safety and risk management of the construction community as well as providing savings and stability to its members.

The Golden State Builders Exchanges (GSBE), an organization represented by your local exchange, understands the construction economy and how insurance costs can impact an organization's bottom line. We support your growing business by providing a competitive contractors group plan.

ACCESS TO THE PROGRAM

This program can be accessed by any licensed broker representing a GSBE member.

Please have your broker request a quote through gsbesubmissions@tangramins.com or call (707) 781-7381.

Please include the following criteria with each submission:

- Exchange Group Number
- Acord
- Supplemental
- 5 years of current loss runs

In the event you do not have a broker and would like to access the program, you can request a quote through gsbe@selectsolutions.com or call (866) 500-6359 for more information.

PROGRAM DETAILS

- Insurance Program and safety services are available to active, participating exchange members
- Group policyholders must be members within 30 days of policy inception. Membership info can be found at www.gsbe.net
- Meet Tangram's underwriting standards and guidelines for eligibility in our program
- Apart from your annual insurance buying process, GSBE and Tangram strive to support your safety and risk management training and education to maintain an optimal premium rate

Take advantage of this discounted workers compensation program now. Contact us today for a quote!
