CITY COUNCIL CHAMBERS/CITY HALL RENOVATION

Addenda: 0

11/14/17 2:00 PM 17-02608

Gonzales

\$150,000

Plan Issuer: City of Gonzales vgonzalez@ci.gonzales.ca.us

831-675-5000

831-675-2644

Prebid Conf: MAND 11/8 @ 10:30am- site

For City Council Chambers:

- Renovate entry door at front lobby, including operational hardware for ADA compliance, handicap button, and steel kick plate on either side
- Supply and install additional flashing on exterior wood detail and address dry rot upon discovery
- Restroom remodel, including new ADA Kohler fixtures, 1.2 gallon water closet, wall-hung sink, facet, point-of-use hot water heater (EMax), replace all dispensers and grab bars per ADA requirements, replace flooring to match the Foyer, install can lighting with fan, replace dry rot at window, and replace window glass with double rain glass tempered
- Repair and refinish all wood flooring throughout (finish will be natural no stain with hybrid type finish)
- Main cabinetry to be refinished, including all new 3/8" glass shelves with lighting from above, doors to be inlaid with glass panels, refurbish locks and hinges, and remove boards and coat hooks
- Supply, prepare surfaces and apply (Dunn-Edwards oil-base primers and enamels), including the repair of holes and cracks, removal of unnecessary hardware, flat on ceilings and egg shell on walls, and contractor to provide 4 color paint schemes to enhance picture hanger trim and details in rooms
- Remove and replace three green drapes and hardware in chambers located on left, right, and rear walls (City to determine new drapes behind dais)
- Supply and install electrical outlets for new city-provided 80-inch TV monitors on right and left walls
- Remove track lighting above dais and patch holes, and retrofit four hanging chandeliers with LED bulbs with white light
- Rear north exterior wall of Chambers to be stucco patched, filled, and painted.
- Supply and install portable aluminum ramp to be fitted to left side of dais for ADA access
- Install additional working space on dais (3" thick, 32" deep, with walnut top matching existing curve, and add picture frame detail as wainscot front of dais)

For City Hall:

- Remodel two bathrooms, including remove and replace of toilets, remove and replace sinks with new faucets, new paint, ADA accessibility
- Remodel staff kitchen/break room, including removal and replacement of cabinets to satisfy ADA compliance. New paint to match rest of City Hall.

About Robinson & Moretti, Inc.:

Robinson & Moretti, Inc. was founded in 1974 and is a highly reputable general engineering construction company dedicated to providing clients with the highest level of quality service. Our extensive services includes general engineering construction, grading, underground utilities, and paving services for residential, commercial, industrial, and certain public agency clients.

Job Description:

Robinson & Moretti, Inc. is currently looking for a Full Time Estimator to work on both residential and commercial projects.

Job Requirements:

- Ideal candidates will have 3+ years providing estimating services for a variety of residential and commercial projects.
- Responsible for accuracy, integrity and completion of estimates to include, but not be limited to, preconstruction, procurement and construction phases.
- Must be able to do take-offs from plans to estimate quantities for wet utilities, dirt, A/C paving.
- Review and analyze drawings, prints, specifications, schematics, contracts, RFPs/RFQs and other construction documents for estimate-related activities. Provided responses to estimate jobs as necessary.
- Responsible for the overall preparation of estimates for the pursuit and acquisition of work.
- Utilizes and administers to a variety of estimating means to include current market pricing, regionally specific pricing, labor usage and analysis and other pertinent financial and performance impacts to the estimate activities.
- Obtain, maintain, and manage data, information, communications, and approvals required by project and company requirements between owner, architects, engineers, and contractors/subcontractors, or other project related entities.
- Analyze and evaluate proposals from subcontractors and quotes from vendors.
- Ensure contractor, architect, engineer, and provider contractual requirements in areas of estimates, cost specifications and valuations. Participate in negotiations when applicable and necessary.
- Strong computer skills and familiarity with Microsoft Office Suite products, and experience with cost and project related systems. Advanced capability in estimating programs such as Heavy Bid by HCSS.
- Ability to represent Robinson & Moretti, Inc. in a professional manner at all times to ensure company quality, policies, procedures and compliance to all applicable laws and regulations.
- Primary company contact with property owner clients, contractors and subcontractor personnel.
- Travel to client sites for understanding of job requirements and measurements for estimates.
- Develop and nurture subcontractor/vendor and client relationships.
- Review, estimate, and reconcile change orders
- Assist office with the progress billing information and percentage of completion updates.

Job Benefits:

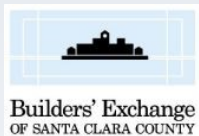

Competitive salary based on experience
Health insurance
Paid Time Off
Profit sharing plan
Use of company truck

Each Office Independently Owned and Operated. If your property is listed with another Broker, this is not a solicitation. Keller Williams Realty does not guarantee the accuracy of square footage, lot size, or other information concerning the condition or features of the property provided by the seller or obtained from public records or other sources and the buyer is advised to independently verify the accuracy of that information through personal inspection with appropriate licensed professionals.

Sometimes, it's yes and no as conditions dictate. Either way may be right. It takes a skilled expert to tell the difference. As builders know, 'it's measure twice, cut once' but contractors complex law is sometimes all about 'splitting hairs'...

Q: I will be purchasing the corporation I work for in April 2018. We are a "C-20" Heating and Air Conditioning company. What do I need to do in regards to licensing? I understand the license stays with the corporation, but is there anything I need to do in order to become Qualified? What are the fees associated with this?

A: Whether the license stays with the corporation or not depends on what type of sale it is. If it's a Stock sale, then yes, the license remains with the corporation. However, if it's an Asset sale you will need to apply for a new license number. To become the Qualifying Individual on the license, you will need to submit an application which must document at least four years of full time work experience doing HVAC work. You will also need to take the exams (Law and Trade) and be fingerprinted. If you will be replacing the Qualified Individual on the existing license, the State fee is \$150. If you will be applying for a new contractor's license, the State fee is \$530.

Q: I currently work for a construction company and their Responsible Managing Officer (RMO) is resigning from the company. They will be left without a contracting license. Knowing I have my own license, they approached me asking if I would like to become the Responsible Managing Employee (RME) for the company and operate under my license. Can this be done without reissuing a new license number? If I leave the company, will the Disassociation Request be dependent upon a signature from the company to be granted/approved?

A: I looked up your company's license and it is a corporation, in which case the license belongs to the company. Therefore, they will not lose their license/license number and they will not be operating under yours. In fact, since you would be acting as the RME, you will be required to Inactivate your Sole Owner license. You can Reactivate it in the future if you decide to leave the company. The Disassociation Notice can either be signed by you or an Officer listed on the license, either way will be acceptable.

Consumer and Contractor Alert!

Amid all the recent disasters which have caused massive property destruction in CA, the CSLB recently circulated a brochure with tips for consumers looking to hire a contractor.

1. Hire only State-licensed contractors.
2. Check the contractor's license number online at www.cslb.ca.gov, or by calling 800-321-CSLB (2752).

3. Get at least three bids.
4. Get three references from each bidder and review past work in person.
5. Make sure all project expectations are in writing and only sign the contract if you completely understand the terms.
6. Confirm that the contractor has Worker's Compensation Insurance for employees.
7. Never pay more than 10% down or \$1000, whichever is less.
*Don't pay in cash.
8. Don't let payments get ahead of the work.
9. Keep a job file of all papers relating to your project, including all payments.
10. Don't make the final payment until you're satisfied with the job.

A season of terrible loss in our state, it would be doubly tragic to have our neighbors stricken again by unlicensed work. And criminal penalties are harsh.

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email info@cutredtape.com, or write us at Capitol Services, Inc., 1225 8th St. Ste. 500, Sacramento, CA 95814. Research past columns at www.cutredtape.com.

CCBA OFFERS MULTIPLE DISCOUNT PROGRAMS TO OUR MEMBERS

The following are just a few of the programs we offer...

We have partnered with EEAP, the safety people, to bring you OSHA compliance solutions for a new generation. EEAP offers our members onsite assessments, citation defense, and hundreds of safety resources along with a flat discounted fee on customized IIPP documentation plus a 50% discount on the GOTSafety.COM app.

Manage your safety resources online with lessons, state of the art employee tracking, customizable forms, document upload and more. Contact Steve Crawley at stevec@gotsafety.com or 844-510-7233 and use promo code GSBE40

CCBA offers a fuel discount program with Flyers Energy for association members in good standing. "Having a fuel discount accompanied with security and accounting features at no additional cost to our members is a real tangible benefit and we are pleased to have Flyers Energy as our partner." Contact Irish Chapman at irishc@4flyers.com or 530-863-4481 for more information.

NEED A HEALTH CARE PLAN? CCBA is here to take all the confusion out of health care reform. Through our NBBE Trust, we have partnered with Anthem, Kaiser and VSP to bring you discount plans specifically designed for you and only available to our members, with huge discounts on dental and vision. Call our program manager, Mike Carlson today at 415-755-6325

CCBA members are eligible to receive a 10% discount on their business auto insurance policy with Allstate Insurance. Find out how this benefit will help you save money by calling 888-328-0770

Give your business the ADP Advantage. As a CCBA member and by working with ADP, you can choose from a range of right sized payroll and employee management solutions to suit the needs of your business today and grow with you tomorrow. Contact Melissa Wallace at 831-222-0677

We are pleased that as a member of the CCBA you are eligible to be part of the Staples Business Advantage discount program.

After enrolling in the program, you will receive discounts on all your favorite office, cleaning and breakroom supplies. The CCBA program comes with FREE 2 day shipping along with a discount card to use in stores. An average of 30% off in store prices can be yours. Contact our office to get started today.

HUGE discount program on all GMC and Chrysler products. Just for being a member you could save anywhere from \$2,000-\$5,000 on your new car or truck.

Also coming soon, a new construction branded Mastercard with tons of management features. Keep your employee's spending under control with this unique credit card. Discounts on many services.

SMART EFFICIENCY FINANCING IS HERE

A better, faster way to pay
for your home upgrades

Why CaliforniaFIRST?

Easy
Financing

Government
Supported

Trusted
Contractors

Lower
Utility Bills

CaliforniaFIRST is a public/private financing program that provides upfront funding for home energy efficiency, renewable energy, and water saving improvements. Simply apply, complete your projects, and repay on your property taxes over the course of up to 25 years.

CaliforniaFIRST is a Property Assessed Clean Energy (PACE) program. This innovative form of financing was created in partnership with state and local governments to encourage energy and water efficiency and to create jobs. And because CaliforniaFIRST is government supported, we're able to offer affordable long-term financing.

After looking at a number of different ways to finance the work, CaliforniaFIRST offered by far the best choice. I can make my home more comfortable and more energy efficient and maybe even increase its value. It's a win all around!

Safety Tip of the Week

ELECTRICAL PATH TO GROUND MISSING

How many times have you found the ground prong missing from an electrical tool or extension cord? Your answer is probably "Too many". OSHA regulation 1926.404(f)(6) requires that the path to ground from circuits, equipment, and enclosures shall be permanent and continuous. Many times on a construction site, due to the frequency and severity of use, electrical equipment that was originally designed and provided with an electrical path to ground is not capable of transferring 'fault current' to ground because the ground prong has been accidentally or intentionally broken off. The electrical path to ground, sometimes known as the 'ground wire', is provided to transfer the 'fault current' to ground in the event that an exposed part of the piece of equipment is energized by the 'hot' conductor or wire in the system. In the case of an electric drill motor it might be energized by the 'fault current' if the internal windings came in contact with the case. If this happened and the equipment ground was not continuous, the path of least resistance from the drill to the ground would be through the user's body.

The hazards of not having a continuous ground are numerous, including electrical shock with injuries ranging from minor burns to death, and the possibility of a fire or explosion. Electrical shock is often the initiator of other types of injuries, from employees being shocked and falling from elevated places, to others who have been hurt when struck by a hand held tool that was dropped when the user was shocked.

It is important to recognize the value of always inspecting your electrical equipment prior to use for defects, such as ground prongs, frayed cords, cracked tool casings, etc. which indicate that the tool should be taken out of service. And don't forget to mark the defective tool with a tag to prevent another worker from grabbing the tool and using it. Another safety measure is to try to use a double insulated tool whenever possible. These tools protect the user from 'fault current' Double insulated tools must be distinctively marked.

**TO PREVENT ELECTRICAL SHOCK AND ASSOCIATED INJURIES USE A QUALIFIED
ELECTRICIAN TO MAKE ALL ELECTRICAL REPAIRS.**
