NEW NORTH COUNTY GROUNDWATER SUPPLY PROJECT – MONITORING WELL INSTALLATION Addenda: 0

10/21/20 2:00 PM 20-02745 Hollister

Plan Issuer: San Benito County Water District 831-637-8218 831-637-7267

Prebid Conf: 10/15 @ 9am- 30 Mansfield Road in Hollister

The project will include the drilling, well construction, development, and water quality testing for one new test well. If during drilling the selected site is obviously not favorable for the production of water for potable supply, no test well will be installed and the borehole will be destroyed. If the test well is completed and water quality is found to be unacceptable as a location for a production well, the test will be maintained and incorporated as a dedicated monitoring well for the District.

RFP - RADIO MODERNIZATION

Addenda: 4

10/9/20 3:00 PM 20-02454 1593 San Luis Obispo

Plan Issuer: County of San Luis Obispo JDHANSEN@CO.SLO.CA.US 805-781-5906 000-000-0000

Prebid Conf: 9/10 @ 10am- VIRTUAL

The County of San Luis Obispo ("County") is replacing the aging transmitters and transceivers of their Emergency Radio System. As part of that replacement, the County is seeking a radio system supporting simulcast transmission and receiver voting compatible with its existing radio user devices and console system. The new radio system will use IP based backhaul connections between sites. The County may migrate from analog technology to digital P25 Phase 2 in the future so the County prefers to deploy P25 capable equipment to facilitate a future P25 upgrade of its radio system.

NEW CASTILLO DEL MAR EXTENSION

Addenda: 0

11/5/20 2:00 PM 20-02737 PW 2020-05 Arroyo Grande

805-473-5444 805-473-5462

Plan Issuer: City of Arroyo Grande jmcpeek@arroyogrande.org

Prebid Conf: 10/15 @ 2pm- Intersection of Castillo Del Mar and Orchard Street

In general, the project consists of the demolition of portions of the existing roadway and Arroyo Grande High School parking lot, construction of public improvements within a new right-of-way to realign Castillo Del Mar to a new connection point with Valley Road. The work includes the construction of a new 40' wide street section, with a 12.5' wide multiuse HMA path on the northern side, separated by curb and gutter. Drainage for the project includes three (3) headwalls and associated culverts and drainage inlets, as well as low impact development design including vegetated swales and biofiltration planter. Landscaping includes the biofiltration planter, vegetated swales, and street trees. Utilities include removing existing and installing new water main and connections, and electrical to serve the street lights. Other items are striping and installation of solar-powered rectangular rapid flashing beacons (RRFBs). Bid Alternatives include an increase of street section HMA depth, street trees and related irrigation, High School Parking Lot striping, parking bumpers, and Street Lights.

WWTP REDUNDANCY PROJECT

Addenda: 1

11/10/20 2:00 PM 20-02670 Oceano

805-489-6666

Plan Issuer: South San Luis Obispo County Sanitation District

Prebid Conf: 9/30 @ 1pm- Meeting invitation will be emailed to each prequalified contractor

The project will be completed within the existing plant site. The existing plant uses influent pumps, mechanical screens, grit removal, primary clarifiers, one fixed film reactors (FFR), one secondary clarifier, and chlorination to provide secondary treatment with disinfection to treat wastewater. The plant is designed and permitted to treat a peak dry weather flow of 5.0 million gallons per day (MGD), and peak wet weather flows can reach 10.0 MGD. Average daily flows currently are 2 to 3 MGD. Bidders shall: 1) ensure that the WWTP maintains continuous operation and compliance with its permit during construction of the improvements; 2) monitor movement of existing facilities and pipelines and protects existing facilities and pipelines from settlement and damage; 3) provide shoring and dewatering systems to maintain dewatering discharge within specified limits and 4) provide for abatement and testing of products with lead-containing paint in accordance with local, state, and federal regulations.

LETC RETAINING WALL SCREEN EVERGREEN VALLEY COLLEGE (EVC) **Addenda: 3**

10/5/20 2:00 PM 20-02572 X-2016.0093 San Jose \$120,000

Plan Issuer: San Jose Evergreen Community College District- (SJECCD) 408-274-6700

Installation of architectural screen at LETC Loading Dock at Evergreen Valley College. The scope of this project involves the installation of a fiber cement panel system to an existing concrete retaining wall located north of the library loading dock. Preparation scope includes removal of existing light fixtures and pressure washing the existing concrete wall. Two surface cracks are located on the wall and shall be filled with epoxy crack sealer prior to installation of new work. Construction consists of fiber cement panel system with steel furring channels installed on the existing concrete substrate. Reinstall light fixtures.

GRAHAM HILL WATER TREATMENT PLANT CONCRETE TANKS REPLACEMENT

Addenda: 2

10/15/20 11:00 AM 20-02535 CWO 2019-002 Santa Cruz \$30,000,000 to \$35,000,000

Plan Issuer: City of Santa Cruz

831-420-5327 831-420-5201

Prebid Conf: 9/15 @ 10am- VIRTUAL

*** BID DOCS WILL BE NOT BE PROVIDED BY OWNER. CONTACT Mitch Kyotani @ mkyotani@cityofsantacruz.com FOR MORE DETAILS ***

The City of Santa Cruz is pleased to issue the Graham Hill Water Treatment Plant (GHWTP) Concrete Tanks Replacement Project for bidding. Bid documents will be provided to pre-qualified contractors by separate link after returning a completed non disclosure agreement to the contact listed on the advertisement. Bids will only be accepted from the six following general contractors who were pre-qualified in April 2020 : Anderson Pacific Engineering Construction, Inc; Gateway Pacific Contractors, Inc; Kiewit Infrastructure West Co; Pacific Hydrotech Corp; Thompson Builders Corporation; W.M. Lyles Co. The City of Santa Cruz Water Department is a public agency with the responsibility to provide safe drinking water to its customers. The GHWTP is the City's only surface water treatment facility and a critical component of the City's permitted drinking water system. The work involves demolishing three prestressed concrete tanks and two pump stations; constructing three new prestressed concrete tanks, four pump stations and an electrical building; earthwork and sitework; plant process yard piping; electrical and instrumentation; and retaining wall and access road widening.

UFO's, or unidentified foreign Officers in LLC licensing that is! An 'exact' expert lesson on foreign entity licensing in CA. A 'double-down' answer for one, and another contractor who has an insurance 'fail'. Generals note the final graph on an opportunity that may be helpful in our pandemic times...

Q: We are an Illinois 'S' Corporation and we need to obtain a Contractor's License. I read online that many applications, specifically LLC applications, are rejected due to the personnel on the application not matching what is on file with the Secretary of State. We are a Canadian company, and our only US Citizen we have listed with the Secretary of State is the individual who will serve as our Qualifying individual. He is based in Texas, where our US home office is. I have several questions. First, will it be a problem that our President and Secretary are Canadian citizens? Second, is it permissible that our Qualifier lives in Texas, or does our Company need to establish a California address? Lastly, do the same rules apply to Corporations vs. LLC's regarding the Personnel issue?

A: Corporations and LLC's are in the same boat when it comes to Personnel matching what is on file with the Secretary of State (SOS). LLC's must match *exactly*, meaning all Members or Managers who are listed with the SOS need to be listed on the license application. For Corporations, the President, Secretary, and Treasurer as are on file with the SOS need to be listed on the license application.

Your company does not need to have a California address in order to obtain a Contractor's License, however all Corporations and LLC's are required to have a Registered Agent on file with the SOS. Let me know if you need assistance with this.

All individuals listed on the Contractor's License application need to either have a US Social Security Number or have an ITIN (Individual Taxpayer Identification Number).

Q: We manufacture and install modular homes. We previously had a General Building

("B") California license back in the 90's that we let lapse due to no one asking/inquiring about us needing a Contractor's license. We always hire sub-contractors to do our work, including electrical, plumbing, and any other additions needed on the modular homes. Do we need to have a Contractor's license being that we are subbing out the work? And if the answer is yes, would our previous Qualifier be required to go through the testing process again?

A: Yes, your company needs a Contractor's License. The entity signing contracts for work, *as well* as the entity performing the work, both need to be properly licensed.

Q: Our license is currently Suspended for lack of proof of insurance. Is this something I can submit online or what is the process?

A: Your insurer should have the ability to submit your certificate online. The CSLB is a bit backlogged currently, so it may take some time for them to apply it, but as long as the effective date of the insurance policy doesn't show a lapse, the license shouldn't either.

Attention "A" and "B" Contractor's:

During the pandemic, you can boost your business by taking part in the Earthquake Brace & Bolt program. The EBB program helps qualified licensed "A" General Engineering and "B" General Building contractors become eligible for residential seismic retrofitting projects through a free online FEMA training. Recently, the program received \$23 million in FEMA grants for homeowners to complete seismic retrofits, creating more than 7,600 jobs for licensed contractors. Learn more at earthquakebracebolt.com or on the CSLB website cslb.ca.gov.

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email info@cutredtape.com, or write us at *Capitol Services, Inc., 3609 Bradshaw Rd, Ste H, #343, Sacramento, CA 95827*. Research past columns at www.cutredtape.com.

EARN CASH BACK ON EACH PRODUCT YOU INSTALL

Over 80+ Partners offer builder incentives exclusively through **HomeSphere's national rebate program**. Start collecting rebates on building essentials today!

HOW THE HOMESPHERE PROGRAM WORKS:

CONNECT

Choose from 80+ Preferred Partner brands across 23 product categories to earn rebates. Continue to purchase products locally.

TRACK

Your local HomeSphere expert will help you efficiently track your closings by community, lot and block.

COLLECT

HomeSphere bundles your rebate incentives together across all products and brands in a single check.

It's Easy to Get Started!

Set a 10-minute meeting with your local HomeSphere Expert who will walk you through:

1. Your Builder Profile & Latest Closed Homes
2. Your Enrollment Form
3. Your W-9 Form

WHAT'S IN IT FOR YOU:

- Get access to Single-Family and Multi-Family Rebates
- Bundle all your rebates into one monthly check
- Continue to increase your rebate check through HomeSphere's network of building product manufacturers

BUNDLE AND EARN MORE

Your cash back can grow. Tap in to HomeSphere's network of 80 manufacturers and brands to increase your rebate check, including:

Position Offering: CORPORATE CONTROLLER

The Don Chapin Company, Inc. is seeking qualified applicants for the position of CORPORATE CONTROLLER. The corporate controller is a dynamic position whose key functions include the management and oversight of all administrative, accounting, and financial activities of our general engineering construction company. Direct responsibilities include preparation of financial statements, budgeting, forecasting and other accounting functions, as well as cash and risk management. This position will report to the Executive Vice President and the President of the company.

Minimum qualifications are:

- Bachelor's degree in Accounting , Finance, or Business Administration. Master's degree and/or CPA preferred.
- Ideal candidate would have a minimum of 10 years of experience in the Accounting and Finance fields. Preferred experience in the construction industry, Percentage of Completion Accounting, Job Cost Reporting, Prevailing Wage, and a strong background in the use of accounting software operating systems.
- Must have excellent computer skills; experience in accounting software (Spectrum a plus) and Microsoft Office Suites, Access, database or similar system knowledge.
- Excellent written and verbal communication and management skills
- Knowledge of accounting best practices, legal standards, and state and Federal regulations.
- Analytical ability to develop and implement improvements or recommendations.
- Attention to detail and organized; self motivated leader
- Able to work well with senior executives, department heads and managers, as well as mentor/lead other team members.

Excellent compensation and benefits package. We are an equal opportunity employer.

Please print an application from our website at www.donchapin.com and send your resume to:

or contact your closest exchange

LOCALLY GROUNDED - STATE POWERED

Your local, community based Exchange has always been the best resource for the local construction industry. Now your local exchange is BETTER and STRONGER.

Safety Tip of the Week

WHAT'S IN IT FOR ME?

Employees who take safety seriously are more likely to avoid injuries, and that certainly is a big health factor. They get paid more than employees who are careless and suffer injuries, which disable both their bodies and their paychecks.

Employees who have a good attitude toward safety have a mature outlook on life that allows for consideration of others. In other words, they probably have no trouble-keeping friends. And certainly families benefit when the breadwinner stays healthy.

An employee with a good attitude realizes that safety rules are made to protect him or her and that in return certain responsibilities must be met. In other words, you have to recognize that an accident could happen to you and then act accordingly.

In addition, stay in step with safety by following safety rules that have been established for your job. Use the protective equipment specified for the job. Pay attention to your work, and seek help from your supervisor if you have questions.

Always operate equipment safely, making certain that all guards are in place and that equipment is in good working order before using it. Operate only equipment which you have been authorized to run.

Remember, accidents don't just happen; they're caused, either by an unsafe act, an unsafe condition, or a combination of both.

Unsafe acts include such things as taking chances and engaging in horseplay. So always work at safe speeds and shut off equipment before making repairs or adjustments.

Be particular about the housekeeping in your work area and always load or stack materials properly. Many tripping hazards can be eliminated.

If you've ever thought, "What's in it for me?" the answer should be fairly obviously at this point. No one wants to become a statistic, particularly a painful statistic. So develop a safe attitude. It not only will pay off for you but for the people you work with, too.

Tip de Seguridad en Español

¿QUÉ ES LO QUE GANO YO?

Empleados que toman la seguridad seriamente son aquellos que evitan lesiones, y ciertamente esto es un factor muy grande para proteger la salud. A ellos se les paga más que a los empleados que son descuidados y sufren lesiones que incapacitan no solo a sus cuerpos sino también a sus cheques de pago.

Empleados que tienen una actitud buena hacia la seguridad tienen una perspectiva madura de la vida que permite ser considerados de otros. En otras palabras, probablemente no tienen problemas con tener amigos. Y ciertamente las familias se benefician cuando la persona que gana el dinero está saludable.

Un empleado con una actitud buena se da cuenta de que estas reglas de seguridad se hacen para protegerlo (la) y que en cambio se deben asumir ciertas responsabilidades. En otras palabras, usted tiene que reconocer que sí puede pasarle un accidente y luego actuar para prevenirlo.

En adición, manténgase informado y siga las reglas de seguridad que se han establecido para su trabajo. Use el equipo protector específico para el trabajo. Ponga atención a su trabajo, y busque ayuda de su supervisor si tiene preguntas.

Siempre opere el equipo con su seguridad en mente, esté seguro que todos los resguardos estén en su lugar y que el equipo está en buenas condiciones antes de usarlo. Opere únicamente el equipo para el cual está autorizado.

Recuerde, los accidentes no pasan sin causa, se causan, por un acto inseguro, una condición insegura, o una combinación de ambos.

Actos inseguros incluyen tales cosas como tomar riesgos y hacer payasadas. Todo el tiempo trabaje a velocidades seguras y apague el equipo antes de reparaciones o ajustes.

Sea particular sobre la limpieza en su área de trabajo y siempre cargue o apile materiales propiamente. Así se pueden eliminar muchos riesgos de tropiezo.

Si alguna vez ha pensado, "qué es lo que gano yo?" la respuesta debe ser bastante obvia a este punto. Nadie quiere volverse una estadística, particularmente una estadística dolorosa. Así desarrolle una actitud de seguridad. No sólo ganará usted pero también las personas que trabajan con usted.
